Table of Contents

1 SUMMARY 1
2 ZUSAMMENFASSUNG 3
3 INTRODUCTION 5
3.1 Colic in horses and its importance 5
3.1.1 Complications after colic surgery 5
3.1.1.1 Postoperative ileus (POI) 6
3.1.1.2 Endotoxaemia 6
3.1.1.3 Adhesion formation 8
3.1.1.4 Other complications 9
3.2 Postoperative ileus (POI) in the literature 10
3.2.1 Definition 10
3.2.2 Aetiology 10
3.2.2.1 Neurogenic phase 11
3.2.2.2 Inflammatory phase 12
3.2.3 Treatment of POI 14
3.2.3.1 Treatment of POI in human medicine 14
3.2.3.1.1 Factors enchaining recovery after surgery: 14
3.2.3.1.2 Factors contributing to delayed recovery from POI 16
3.2.3.2 Treatment of POI in equine medicine 17
3.3 Physiology of normal equine intestinal motility 21
3.4 Intestinal homeostasis and inflammation 22
3.5 Eosinophilic granulocytes 23
3.5.1 *Origin, development, and localization of the eosinophilic granulocyte* 23
3.5.2 *Function of the eosinophilic granulocytes* 24
3.5.2.1 Eosinophilic granulocytes and organ development 26
3.5.2.2 Function of the eosinophilic granulocytes in the gastrointestinal tract 26
3.5.2.3 Eosinophils and parasitism 27
3.5.3 Eosinophilic granulocytes and diseases 27
3.5.3.1 Gastrointestinal tract diseases involving eosinophilic granulocytes 27
3.5.3.2 Other diseases involving eosinophilic granulocytes in horses 30
3.5.4 *Studies involving eosinophils in the equine gastrointestinal tract* 31
3.6 Neutrophilic granulocytes 33
3.6.1 *Origin, development, and localization of the neutrophilic granulocytes* 33
3.6.2 *Function of the neutrophilic granulocyte* 34
3.6.3 *Neutrophilic granulocytes and diseases* 35
3.6.3.1 Gastrointestinal tract diseases involving neutrophilic granulocytes 36
3.6.3.2 Other diseases involving neutrophilic granulocytes 37
3.6.4 *Studies involving neutrophilic granulocytes in the equine gastrointestinal tract* 39
3.7 Previous studies on the effects of mechanical manipulations on the intestine 40
3.7.1 Effect of laparotomy 40
3.7.2 Effect of small intestinal manipulation 40
3.7.3 Effect of large intestinal manipulation 43
3.7.4 Panenterits and systemic effects of intestinal manipulation 44

Abstract 72
Objective—To determine characteristics of the inflammatory reaction in jejunums of horses in response to various mechanical manipulations. 72
ABBREVIATION. 72
Material and Methods 74
Study design—
Histologic evaluation 76
Statistical analysis 80
Results 80
Discussion 85
Footnotes: 89
References 90
7 GENERAL DISCUSSION 95
7.1 Method 95
7.2 Material 98
7.3 Results 99
7.3.1 Eosinophils 99
7.3.2 Neutrophils 101
7.4 Clinical consequences 104
7.5 Outlook 105
