1 Introduction 1

PART I: THEORETICAL BACKGROUND 5

2 Pro-Environmental Behavior 6
2.1 Definition 6
2.2 Measurement Methods 7
2.3 Theoretical Frameworks 9
2.4 Influencing Factors 11
2.5 Summary 13

3 Stress and Endocrine Systems 15
3.1 Definition of Stress 15
3.2 Acute Stress in the Laboratory: The “Trier Social Stress Test” 17
3.3 Physiological Stress Response 17
3.4 Hypothalamic-Pituitary-Adrenocortical Axis 19
3.4.1 Cortisol 19
3.5 Hypothalamic-Pituitary-Gonadal Axis 21
3.5.1 Testosterone 23
3.6 Summary 24

4 Testosterone, Cortisol, and Social Behavior 25
4.1 Testosterone and Social Behavior 25
4.2 Cortisol and Social Behavior 28

4.3 Joint Effects of Testosterone and Cortisol on Social Behavior 29
4.3.1 Interaction Versus Ratio Effects 31
4.4 Summary 33

5 Stress and Social Behavior 35
5.1 Effects of Stress on Prosocial Behavior 36
5.2 Effects of Mood on Prosocial Behavior 37
5.3 Summary 38

6 Conclusions, Research Questions and Hypotheses 39

PART II: EMPIRICAL STUDIES 41

7 Testosterone and Cortisol Are Jointly Related to Pro-Environmental Behavior 421
7.1 Introduction 42
7.2 Method 46
7.2.1 Participants 46
7.2.2 Procedure 46
7.2.3 Pro-Environmental Behavior and Awareness 48
7.2.4 Chronic Psychosocial Stress 49
7.2.5 Testosterone and Cortisol 49
7.2.6 Protocol of Activities 50
7.2.7 Health-Related Information 50
7.2.8 Statistical Analysis 50
7.3 Results 51
7.3.1 Descriptive Statistics and Zero-Order Correlations 51
7.3.2 Interaction Effects of Testosterone and Cortisol in Relation to Pro-Environmental Behavior 52
7.3.3 Interaction Effects of Testosterone and Cortisol in Relation to Pro-Environmental Awareness 55
7.3.4 Structural Equation Models 55
7.3.5 Effects of the Testosterone/Cortisol Ratio 56
7.3.6 Compliance With Saliva Sampling Procedures 56
7.4 Discussion 57

8 Stress Influences Environmental Donation Behavior 61
8.1 Introduction 61
8.2 Methods 64
8.2.1 Participants 64

8.2.2 Procedure 65
8.2.3 Pro-Environmental Orientation 66
8.2.4 Donation Behavior 66
8.2.5 Endocrine Parameters 67
8.2.6 Subjective Mood 68
8.2.7 Emotion Regulation 68
8.2.8 Statistical Analysis 69
8.3 Results 70
8.3.1 Baseline Parameters 70
8.3.2 Stress Response 71
8.3.3 Donation Behavior 72
8.4 Discussion 74

PART III: GENERAL DISCUSSION 79

9 Summary of Findings 80

10 Discussion and Integration of Findings 81

11 Strengths and Limitations 85

12 Outlook, Implications and Conclusions 88

References 90
