

Table of Contents

Table of Contents	i
List of Figures.....	v
List of Tables.....	vi
Abbreviations	viii
A <i>Fundamentals</i>	1
1 Introduction	2
1.1 Motivation	2
1.2 Research Objective.....	4
1.3 Structure of the Thesis.....	7
1.4 Research Context and Design	11
1.5 Audience Addressed and Anticipated Contributions	13
2 Background	15
2.1 Electric Mobility	15
2.2 The Price Barrier to EV Adoption.....	18
2.3 The Infrastructure Barrier to EV Adoption	20
2.4 The Range Barrier to EV Adoption.....	22
B <i>Understanding the Phenomenon of Range Anxiety</i>	27
1 The Evolution of Range Anxiety – A Literature Analysis	29
1.1 Research Scope	30
1.2 Analyzing the Literature.....	30
1.2.1 Methodological Approach	30
1.2.2 Evaluating the Final Set of Articles	34
1.3 Synthesizing the Literature.....	35
1.3.1 Psychological Perspective.....	38
1.3.1.1 General Findings.....	38
1.3.1.2 Individual Range Resources	39
1.3.2 Information Systems and Technical Perspective	41
1.3.2.1 Range Prediction Accuracy.....	41
1.3.2.2 Displaying the Remaining Driving Range.....	43

1.3.2.3	Routing and Recommender Systems	44
1.3.3	Infrastructure Perspective	45
1.3.4	Range Anxiety Measurement	46
1.4	Conclusion	47
2	The Value of IS for Increasing the Acceptance of Electric Vehicles	51
2.1	Introduction.....	52
2.2	Theoretical Background.....	53
2.2.1	Electric Mobility and Charging Infrastructure	53
2.2.2	Range Anxiety	53
2.2.3	User Acceptance	54
2.3	Related Work	55
2.4	Conceptualization of Range Anxiety	56
2.4.1	Identifying the Factors Influencing Range Anxiety	56
2.4.2	Assessment of the Identified Factors Influencing Range Anxiety	58
2.5	Method	58
2.5.1	Approach for the Measurement of Range Anxiety.....	59
2.5.2	Identifying the Influence of IS for Reducing Range Anxiety	61
2.6	Results.....	61
2.7	Discussion	64
2.8	Conclusion	65
C	<i>Evaluating Measures to Mitigate the Range Barrier.....</i>	67
1	The Role of Mobile Applications for Electric Vehicle Diffusion.....	69
1.1	Introduction.....	70
1.2	Theoretical Background.....	71
1.2.1	The Need for Disruptive Eco-Innovations.....	71
1.2.2	Mobile Applications for Environmental Sustainability.....	72
1.2.3	Electric Vehicles and Information Systems.....	73
1.3	Methodological Approach	74
1.3.1	Survey.....	74
1.3.2	Data-Collection Procedure and Sample Characteristics	75
1.3.3	Data Analysis.....	76
1.3.4	Mobile Applications Analysis	76

1.4	Findings	77
1.4.1	Attributes and Substitution Potential	77
1.4.2	Mobile Applications	79
1.5	Synopsis and Discussion	81
1.6	Limitations and Conclusion	82
2	The Impact of Information Systems on Perceived Stress and Attitude.....	85
2.1	Introduction	86
2.2	Theoretical Background	88
2.2.1	Stress and the Transactional Stress Model	88
2.2.2	The Role of Attitude in Predicting Behavior	91
2.3	Research Model and Hypotheses	92
2.4	Methodological Approach.....	94
2.4.1	Sample and Data-Collection Procedure	95
2.4.2	Measurement of Constructs	95
2.5	Results	98
2.5.1	Analysis of Measurement's Construct	98
2.5.2	Hypothesis Tests	99
2.6	Discussion	100
2.7	Conclusion.....	103
3	Understanding the Influence of Information Systems on Range Stress	105
3.1	Introduction	106
3.2	Material and Methods.....	108
3.2.1	Research Model and Hypothesis Development	108
3.2.2	Measurement of Constructs	111
3.2.2.1	Psychometrical Evaluation	111
3.2.2.2	Psychophysiological Evaluation	112
3.2.3	Participants.....	112
3.2.4	Experimental Setting.....	113
3.3	Results	116
3.3.1	Psychometrical Evaluation	116
3.3.2	Psychophysiological Evaluation	118
3.4	Discussion	121
3.4.1	Psychometric Data Evaluation.....	121

3.4.2	Psychophysiological Data Evaluation	122
3.4.3	Comparing Psychometric and Psychophysiological Results	123
3.4.4	Limitations and Future Research	123
3.5	Conclusion	124
4	Finding Suitable Locations for Charging Stations	125
4.1	Introduction	126
4.2	Literature Analysis	127
4.3	Methodical Approach	129
4.4	Research Design	132
4.5	Results	134
4.6	Discussion	136
4.7	Conclusion	138
	Acknowledgments	139
D	Contributions	141
1	Findings	142
1.1	Findings that Help Understand the Phenomenon of Range Anxiety	142
1.2	Findings Related to Measures for Mitigating the Range Barrier	143
1.3	Aggregated Findings	146
2	Implications for Theory and Practice	150
2.1	Major Contributions to Theory	150
2.2	Major Contributions to Practitioners	151
3	Concluding Remarks	153
3.1	Limitations	154
3.2	Further Research Avenues	155
	References	158
	Appendix	184
	Curriculum Vitae	186
