## Contents

List of manuscripts.....	II
List of relevant abbreviations .....	III
Chapter 1: Prologue .....	1
Chapter 2: Magnesium deficiency decreases biomass water-use efficiency and increases leaf water-use efficiency and oxidative stress in barley plants .....	14
Chapter 3: Comparative study on proteome changes in response to potassium deficiency and drought in <i>Triticum aestivum</i> roots .....	29
Chapter 4: Impaired carbon partitioning is caused by physiological alterations in source leaves of <i>Beta vulgaris</i> under Mg deficiency .....	61
Chapter 5: Daytime leaf water use efficiency does not explain the relationship between plant N status and biomass water-use efficiency of tobacco under non-limiting water supply .....	80
Chapter 6: Epilogue .....	91
Summary .....	104
Appendix .....	106
Further publications .....	118
Acknowledgements.....	120
CV .....	122
Declarations.....	124
