

## Table of contents

### Abstract

### Zusammenfassung

Table of contents .....	i
List of figures .....	iii
1. General Introduction .....	1
1.1 Natural products .....	1
1.1.1 Alkaloids.....	1
1.2 Pyrrolizidine Alkaloids (PAs) .....	2
1.2.1 Occurrence.....	2
1.2.2 Chemistry of PAs.....	3
1.2.3 Biosynthesis of PAs.....	6
1.2.4 Contamination of foodstuffs and herbal products with PAs.....	7
1.2.5 Toxicity and Metabolism.....	10
1.2.6 Metabolism .....	12
1.2.7 Methods of PA analysis .....	15
1.2.8 Regulation.....	20
1.2.9 General objectives and initial questions of the thesis.....	21
2. Publications.....	23
2.1 Survey of pyrrolizidine alkaloids in seven varieties of <i>Lappula squarrosa</i> : An alternative source of heart-healthy vegetable oil. <i>Phytochemical analysis</i> 27, 2016, 133–139 .....	23
2.2 Toxic pyrrolizidine alkaloids in herbal medicines commonly used in Ghana. <i>Journal of Ethnopharmacology</i> 202, 2017, 154–161.....	31

---

2.3 Pyrrolizidine alkaloids in floral honeys of tropical Ghana: a health risk assessment. <i>Food Additives and Contaminants: Part B</i> 10, 2017, 300–310.....	40
2.4 Incidence of Pyrrolizidine Alkaloids in Herbal Medicines from German Retail Markets: Risk Assessments and Implications to Consumers. <i>Phytotherapy Research</i> , 2017, DOI: 10.1002/ptr.5935 .....	53
3. General discussion and conclusion .....	61
3.1 Sum parameter method.....	61
3.2 Reducing the risk of PA intoxication .....	61
3.2.1 Reducing the risk of PAs in products sourced from Ghana .....	62
3.2.2 Reducing the risk of PAs in herbal products from Germany .....	64
4. References.....	68
Appendix.....	80
Appendix A: Authors' contributions.....	81
