Contents

List of manuscripts	I
List of relevant abbreviations	II
Chapter 1: Prologue.....	1
Chapter 2: Optimized potassium nutrition improves plant-water-relations of barley and mitigates oxidative stress under PEG-induced water deficit	13
Chapter 3: Adequate potassium supply under osmotic stress mitigates photo-oxidative damage in barley via simultaneous ROS avoidance and enhancement of antioxidant activity	37
Chapter 4: Genome-wide expression profiling of barley in response to PEG-induced water deficit under different potassium application levels	61
Chapter 5: Epilogue.....	93
Summary	105
Appendix.....	107
Further publications	129
Acknowledgements	131
CV	133
Declarations	135
