

Contents

1. Introduction	1
2. Acoustic wave field	5
2.1 Kinetic energy - longitudinal field	12
2.2 Potential energy - longitudinal field	15
2.3 Acoustic celerity and speed of sound	17
2.4 Kinetic energy – rotational field	18
2.5 Potential energy – rotational field	22
2.6 Energy equilibrium	22
2.7 Comments	25
3. Electromagnetic wave field	27
3.1 Fundamental considerations	27
3.2 Validation of the mathematical model	32
3.3 Particle properties	41
3.4 Comments	46
4. Further considerations	49
4.1 Superlight speed	49
4.2 Photoelectric effect	51
4.3 Gravity	52
5. Scientific observations	55
6. Conclusion	57
7. References	61
