Contents	I
List of Figures	III
List of Symbols and Abbreviations	VII
Introduction	IX
1 Theoretical concepts	1
1.1 Heavy-fermion systems	1
1.1.1 Single-impurity Kondo effect	1
1.1.2 Kondo-lattice systems and RKKY interaction	3
1.2 Landau Fermi-liquid behavior	6
1.3 Routes to non-Fermi-liquid behavior	7
1.3.1 Quantum critical phenomena	8
1.4 Pressure response of the Ce- and Yb-atoms	14
2 Experimental methods	17
2.1 High-pressure techniques	17
2.1.1 Pressure cells	18
2.1.2 Determination of pressure	20
2.1.3 Electrical-resistivity measurements	23
2.1.4 A.c. magnetic-susceptibility measurements	23
2.2 Measurement instruments	24
3 Transport studies of the HF metal YbIr_2Si_2 under high pressure	25
3.1 Crystal structure	27
3.2 Short overview of the physical properties of the HF metal YbRh_2Si_2	29
3.3 $\text{Yb}(\text{Rh}_{0.94}\text{Ir}_{0.06})_2\text{Si}_2$: external pressure <i>vs.</i> chemical substitution	35
3.4 Effect of the magnetic field on $\text{Yb}(\text{Rh}_{0.94}\text{Ir}_{0.06})_2\text{Si}_2$ under pressure	40
3.5 Discussion: $T - p$ phase diagram of $\text{Yb}(\text{Rh}_{0.94}\text{Ir}_{0.06})_2\text{Si}_2$	46
3.6 Effect of pressure on the heavy-fermion system YbIr_2Si_2	48
3.6.1 Physical properties of YbIr_2Si_2 at ambient pressure	49
3.6.2 Evolution of the high-temperature physical properties of YbIr_2Si_2 with pressure	52

3.6.3	Effect of pressure on the crystal lattice in YbIr_2Si_2	58
3.6.4	Pressure dependence of the physical properties of YbIr_2Si_2 at low temperatures	61
3.6.5	Effect of magnetic field on YbIr_2Si_2 under pressure	68
3.7	Discussion	73
3.8	Summary	85
4	Pressure studies on the FM Kondo-lattice system CeRuPO	89
4.1	Sample preparation and crystal structure	90
4.2	Overview of the ambient-pressure properties of the CeTPO family	92
4.2.1	Ferromagnetism in the Kondo-lattice system CeRuPO	93
4.3	Evolution of the ground-state properties of CeRuPO under pressure . . .	99
4.4	Electrical-resistivity studies on CeRuPO at low temperatures	115
4.4.1	Electrical resistivity in the magnetically ordered state	115
4.4.2	Study of the PM ground state of CeRuPO by resistivity	120
4.5	Evolution of Kondo and CEF energy scales with pressure	122
4.6	Discussion and summary	129
5	Conclusion	133
	Bibliography	137
	Acknowledgements	147
