Table of Contents

Nomenclature	iii
1 Introduction	1
2 State of Knowledge	7
2.1 Bubbly Flows	7
2.1.1 Fluid Dynamics of Freely Rising Bubbles	9
2.1.2 Wall Effects on Free Rising Bubbles	13
2.2 Taylor Bubbles	16
2.2.1 Fluid Dynamic Behavior of Taylor Bubbles	18
2.2.2 Shape of Taylor Bubbles	19
2.2.3 Wake Regions of Taylor Bubbles	21
2.3 Mass Transfer Phenomena	23
2.3.1 Mass Transfer Phenomena at Free Rising Bubbles	23
2.3.2 Mass Transfer Phenomena at Taylor Bubbles	28
2.3.3 Fundamentals of Reactive Mass Transfer	32
2.4 Reactive Bubbly Flows	37
2.4.1 Influence of Mixing on Gas-Liquid Chemical Reactions	37
2.4.2 Model Reactions Used in Bubbly Flows	39
2.4.3 Concentration Field Measurement Techniques for Reactive Bubbly Flows	41
2.5 Conclusion & Research Goal	45
3 Experimental Methods	47
3.1 Basic Experimental Setup	47
3.2 Investigation of the Global Fluid Dynamics of Taylor Bubbles in Organic Solvents	50
3.2.1 Experimental Setup – Terminal Rise Velocity	50
3.2.2 Backlight Imaging	52
3.3 Investigation of Local Fluid Dynamics in Taylor Bubble Wakes	54
3.3.1 Particle Image Velocimetry	54
3.3.2 Experimental Setup – Local Fluid Dynamics	56

Table of Contents

4	Fluid Dynamics of Taylor Bubbles in Organic Solvents	59
4.1	Determination of the Global Fluid Dynamics	59
4.1.1	Global Fluid Dynamics of Taylor Bubbles in Methanol	60
4.1.2	Global Fluid Dynamics of Taylor Bubbles in other Organic Solvents Compared to Methanol	63
4.2	Determination of Local Fluid Dynamics	69
4.2.1	Local Fluid Dynamics in the Wake of a Taylor Bubble in Methanol	69
4.2.2	Comparison to Aqueous Systems	74
5	Development of a Method for the Measurement of Transient Concentration Fields	79
5.1	MNIC-DNIC Model Reaction	82
5.2	High Speed Imaging UV-VIS Spectroscopy	83
5.2.1	Physical Background	83
5.2.2	Measuring Principle and Data Processing	85
5.3	Experimental Setup - Concentration Field	89
6	Investigation of the Transient Concentration Field of Reactive Taylor Bubbles	93
6.1	Validation of UV-VIS High Speed Imaging Spectroscopy	94
6.2	Concentration- and Selectivity Fields in the Wake of Reactive Taylor Bubbles	99
6.3	Interplay of Fluid Dynamics, Chemical Reactions and Mass Transfer	105
7	Conclusion and Outlook	115
	References	119
	Appendix A Swagelok Piping	131
	Appendix B PIV Settings and Equipment	133
	Appendix C Proposed Correlation Depending on Reciprocal Eötvös Number	137
	Appendix D Comparison of Local Flow Fields in Water and Methanol	139
	Appendix E Technical Drawing LED Array	141
	Appendix F Grayscale Images of the Investigated Reactive Taylor Bubbles	143
	Curriculum Vitae	147
