

**Table of Contents**

I. List of Figures.....	IV
II. List of Tables.....	V
III. List of Abbreviations .....	VIII
IV. Abstract.....	XI
<b>Chapter 1. Introduction.....</b>	<b>1</b>
<b>1.1 Sustained attention .....</b>	<b>1</b>
<b>1.1.1 Psychological foundation, definitions and significance .....</b>	<b>1</b>
<b>1.1.2 Neural mechanisms of sustained attention .....</b>	<b>2</b>
<b>1.1.3 Sustained attention decline in elderly .....</b>	<b>6</b>
<b>1.1.4 Neurodegenerative mechanism behind vigilance decline in aging.....</b>	<b>7</b>
<b>1.2 Cognitive training .....</b>	<b>10</b>
<b>1.2.1 Behavioral changes possibly induced to remedy cognitive aging .....</b>	<b>11</b>
<b>1.2.2 Possible underlying mechanisms to ameliorate cognitive aging .....</b>	<b>14</b>
<b>1.2.3 Heterogenous findings of cognitive training in sustained attention .....</b>	<b>16</b>
<b>1.2.4 Possible ways to improve the efficacy of cognitive training .....</b>	<b>18</b>
<b>1.3 Transcranial Direct Current Stimulation (tDCS).....</b>	<b>23</b>
<b>1.3.1 Introduction of Non-invasive brain stimulation (NIBS) .....</b>	<b>23</b>
<b>1.3.2 Mechanisms of tDCS effects .....</b>	<b>25</b>
<b>1.3.3 Determinants of tDCS effects.....</b>	<b>26</b>
<b>1.3.4 Physiological effects of tDCS in distinct cortices .....</b>	<b>29</b>
<b>1.3.5 Cerebral functional connectivity effects of tDCS .....</b>	<b>31</b>
<b>1.3.6 Alterations in task performance accomplished by tDCS only and by its combination with cognitive training.....</b>	<b>32</b>
<b>1.3.7 tDCS effects on sustained attention.....</b>	<b>37</b>
<b>1.3.8 Approach to leverage the effects of tDCS.....</b>	<b>40</b>
<b>1.4 Aims and hypotheses .....</b>	<b>44</b>
<b>Chapter 2. Study 1: Effects of tDCS on cognitive training tasks and the possible synergistic effects on sustained attention of healthy elderly .....</b>	<b>47</b>
<b>2.1 Introduction.....</b>	<b>47</b>
<b>2.2 Methods.....</b>	<b>56</b>
<b>2.2.1 Participants .....</b>	<b>56</b>

2.2.2 Transcranial direct current stimulation of the dorsolateral prefrontal cortex .....	56
2.2.3 Multidimensional Cognitive training task.....	57
2.2.4 Monitoring of sustained attention.....	61
2.2.5 Side effects and blinding .....	62
2.2.6 Experimental procedure .....	63
2.2.7 Data analysis and statistics.....	64
2.2.7.1 tDCS effects on synchronized cognitive training task performance.....	64
2.2.7.2 Possible synergistic effects on sustained attention in healthy elderly .....	65
2.2.7.3 Assessment of tDCS side-effects and blinding .....	65
2.3 Results.....	66
2.3.1 Demographics.....	66
2.3.2 tDCS effects on concurrent cognitive training task performance .....	66
2.3.3 Baseline AX-CPT measurements .....	69
2.3.4 Intervention effects on AX-CPT performance.....	72
2.3.5 Blinding of participants to tDCS and side effect ratings .....	75
2.4 Discussion .....	77
<b>Chapter 3. Study 2 : Efficacy of multidimensional cognitive training on sustained attention in healthy elderly.....</b>	<b>82</b>
3.1 Introduction .....	82
3.2 Methods .....	84
3.2.1 Participants .....	84
3.2.2 Cognitive training tasks .....	85
3.2.3 Video watching condition .....	86
3.2.4 Monitoring of sustained attention .....	87
3.2.5 Assessment of sham tDCS side effects and blinding.....	88
3.2.6 Experimental procedure .....	88
3.2.7 Data analysis and statistics .....	90
3.3 Results .....	91
3.3.1 AX-CPT baseline response time, overall, commission and omission error rates in Study 2 .....	91

<b>3.3.2 Cognitive training effects on AX-CPT</b> .....	93
<b>3.3.2 Blinding of participants for tDCS and side effect ratings</b> .....	94
<b>3.4 Discussion</b> .....	95
<b>Chapter 4. General Discussion</b> .....	98
<b>4.1 Short summary of the main results</b> .....	98
<b>4.1.1 Study 1</b> .....	98
<b>4.1.2 Study 2</b> .....	100
<b>4.2 Comparison with other research</b> .....	101
<b>4.3 Possible mechanisms</b> .....	106
<b>4.4 Limitations</b> .....	107
<b>4.5 Future directions</b> .....	110
<b>5. References</b> .....	112
<b>6. Supplementary materials</b> .....	141
<b>7. Acknowledgement</b> .....	162
