

Contents

Introduction	1
1 Matrix-Inclusion Composite	3
1.1 Model System	3
1.2 Coordinate System	4
1.3 Phase-Transformation Strain	8
2 Mechanics of Elastic Solid Continuum	13
2.1 Fundamental Equations	13
2.2 Elastic Energy	16
2.3 Boundary Conditions	16
2.3.1 Inclusion	17
2.3.2 Matrix	17
2.3.3 Superposition Method	18
3 Mathematical Model 1	21
3.1 Mathematical Procedure	21
3.2 Matrix	22
3.3 Inclusion	25
4 Mathematical Model 2	27
4.1 Mathematical Procedure	27
4.2 Matrix	30
5 Mathematical Model 3	43
5.1 Mathematical Procedure	43
5.2 Matrix	46

6	Mathematical Model 4	61
6.1	Mathematical Procedure	61
6.2	Matrix	62
6.3	Inclusion	71
7	Mathematical Model 5	73
7.1	Mathematical Procedure	73
7.2	Matrix	75
8	Strengthening	85
9	Crack Formation	89
10	Appendix	95
10.1	Cramer's Rule	95
10.2	Integrals	96
10.3	Wronskian's Method	97
10.4	Numerical Determination	99
	Bibliography	101
	Index	104
