

## Table of Contents

|  |           |
|--|-----------|
| Table of Contents .....  | i         |
| List of Figures .....  | iv        |
| List of Tables .....   | v         |
| List of Abbreviations .....  | vii       |
| <b>A. Foundations .....</b>  | <b>1</b>  |
| <b>I. Introduction.....</b>  | <b>2</b>  |
| I.1 Motivation .....   | 2         |
| I.2 Research Gap and Resulting Research Questions .....  | 7         |
| I.3 Structure of this Thesis .....   | 10        |
| I.4 Research Positioning and Design.....   | 13        |
| I.5 Anticipated Contributions.....   | 17        |
| <b>II. Research Background.....</b>  | <b>20</b> |
| II.1 Artificial Intelligence in Organizational Contexts .....  | 21        |
| II.2 Natural Language Processing in Healthcare .....   | 26        |
| II.3 Medical Documentation Processes – The Case of “AuMEDa” .....  | 32        |
| <b>B. Studies on Artificial Intelligence in Organizational Contexts .....</b>                                    | <b>35</b> |
| <b>I. Structuring of Human-AI Collaboration in Organizational Contexts.....</b>                                  | <b>36</b> |
| 1. Study 1: Preparing for Generative AI Teammates: A Literature Review of Human-AI Teaming in Organizations..... | 37        |
| 1.1 Introduction.....  | 38        |
| 1.2 Research Background .....  | 39        |
| 1.3 Research Design .....  | 42        |
| 1.4 Findings .....   | 45        |
| 1.5 Discussion .....   | 52        |
| 1.6 Appendix Study 1.....  | 57        |
| <b>II. Aligning Natural Language Processing Systems with Clinical Healthcare .....</b>                           | <b>66</b> |

|             |  |            |
|-------------|--|------------|
| 1.          | Study 2: Natural Language Processing for Medical Texts – A Taxonomy to Inform Integration Decisions into Clinical Practice ..... | 67         |
| 1.1         | Introduction .....   | 68         |
| 1.2         | Research Background .....  | 69         |
| 1.3         | Research Design .....  | 70         |
| 1.4         | Taxonomy to Inform Integration Decisions of NLP-Systems in Healthcare..  | 73         |
| 1.5         | Application of the Taxonomy.....   | 77         |
| 1.6         | Discussion .....   | 80         |
| 1.7         | Conclusion .....   | 83         |
| 1.8         | Appendix Study 2.....  | 84         |
| 2.          | Study 3: Just what the Doctor ordered – Towards Design Principles for NLP-based Systems in Healthcare .....                      | 87         |
| 2.1         | Introduction .....   | 88         |
| 2.2         | Research Background .....  | 89         |
| 2.3         | Research Design .....  | 90         |
| 2.4         | Understanding the Design of NLP-based Systems in Healthcare .....  | 92         |
| 2.5         | Discussion and Conclusion .....  | 97         |
| <b>III.</b> | <b>Investigating the Impact of Alignment on Human-AI Collaboration Performance .....</b>   | <b>99</b>  |
| 1.          | Study 4: Humans Supervising Artificial Intelligence – Investigation of Designs to Optimize Error Detection.....                  | 100        |
| 1.1         | Introduction .....   | 101        |
| 1.2         | Research Background .....  | 103        |
| 1.3         | Research Model and Hypotheses Development.....   | 106        |
| 1.4         | Experimental Design.....   | 110        |
| 1.5         | Experiment 1: Prior Information .....  | 111        |
| 1.6         | Experiment 2: Visual Guidance.....   | 114        |
| 1.7         | Discussion .....   | 116        |
| 1.8         | Conclusion .....   | 120        |
| 1.9         | Appendix Study 4 .....   | 121        |
| <b>C.</b>   | <b>Contributions .....</b>   | <b>125</b> |

---

|                         |   |            |
|-------------------------|---|------------|
| <b>I.</b>               | <b>Findings and Synthesis .....</b>   | <b>126</b> |
| I.1                     | Findings of the Research on the Status Quo of Human-AI Collaboration ...              | 126        |
| I.2                     | Findings of the Research on Natural Language Processing for Clinical Healthcare ..... | 127        |
| I.3                     | Findings of the Research on Designing and Evaluating Human-AI Collaboration .....     | 129        |
| I.4                     | Synthesis of Findings.....  | 130        |
| <b>II.</b>              | <b>Limitations, Future Research and Implications .....</b>                            | <b>138</b> |
| II.1                    | Limitations .....   | 138        |
| II.2                    | Future Research.....  | 139        |
| II.3                    | Implications for Research and Practice .....  | 141        |
| <b>III.</b>             | <b>Concluding Remarks.....</b>  | <b>145</b> |
| <b>References .....</b> |   | <b>147</b> |
| <b>Appendix .....</b>   |   | <b>xi</b>  |
| Appendix A.             | Overview of the Author's Individual Study Contribution.....                           | xii        |
| Appendix B.             | Overview of Further Published Studies .....   | xiii       |
