

Contents

- INTRODUCTION 7
- CHAPTER I 9
- THEORETICAL FOUNDATIONS OF ORGANIZATIONAL BEHAVIOR IN THE MARITIME AND INLAND WATERWAY TRANSPORT SECTOR WITHIN THE FRAMEWORK OF INDUSTRY 5.0 9
 - 1.1. Organizational Behaviour in Maritime and Inland Waterway Transport..... 10
 - 1.1.1. Levels and Dimensions of Organizational Behaviour 10
 - 1.2. Soft Skills as a Factor for Effective Interaction..... 22
- CHAPTER II..... 44
- METHODOLOGY AND RESEARCH APPROACH 44
 - 2.1. Philosophical and Methodological Foundations of the Study..... 44
 - 2.1.1. Integrative Logic of the Study and Expected Relationships..... 45
 - 2.1.2. Research Objectives, Hypotheses, and Research Questions 47
 - 2.1.3. Research Framework and Logic of Analysis 51
 - 2.2. Research Design and Methodological Instruments 53
 - 2.2.1. Selected Methodology 54
 - 2.2.2. Operationalization of the Research Hypotheses 55
 - 2.2.3. Sample and Research Population 57
 - 2.2.4. Data Collection Instruments..... 61
 - 2.2.5. Data Analysis Methods 63
 - 2.2.6. Empirical Verification of the Training Models 66
 - 2.3. Ethical Considerations, Limitations, and Future Directions 67
 - 2.3.1. Ethical Considerations 67
 - 2.3.2. Limitations of the Study 68
 - 2.3.3. Directions for Future Research 70
- CHAPTER III 74
- EMPIRICAL STUDY AND ANALYTICAL RESULTS..... 74
 - 3.1. Empirical Results Across Research Levels 75
 - 3.1.1. Individual Determinants of Effectiveness and Adaptability in a Multicultural Environment (H₁)..... 75
 - 3.1.2. Team-Level Determinants of Effectiveness in Multicultural Work Environments (H₂)..... 80
 - 3.1.3. Organizational Determinants of a Successful Transition to Industry 5.0 (H₃) 84
 - 3.1.4. Educational Factors for Developing Leadership Readiness in the Era of Industry 5.0 (H₄)..... 90

3.2. Integrative Empirical Model of the Human Factor in Industry 5.0 and Validation of the Main Hypothesis (H ₀).....	95
3.2.1. Synthesis of Findings from the Four Levels of Investigation	96
3.2.2. Validation of the Main Research Hypothesis (H ₀)	97
3.2.3. Integrative Empirical Model of the Human Factor in Industry 5.0	101
3.3. Discussion of Findings and Conclusions	103
3.3.1. What This Study Confirms and What It Changes in the Theoretical Framework.....	104
3.3.2. New Scientific Relationships Identified in the Analysis	106
3.3.3. Practical Implications for Management, Leadership, and Education in Maritime Transport.....	107
CHAPTER IV	111
EDUCATIONAL STRATEGIES AND EXECUTIVE EDUCATION PROGRAMS	111
4.1. Conceptual Foundations and the Strategic Role of Executive Education.....	112
4.1.1. Architecture and Key Characteristics of Executive Education.....	113
4.1.2. Organisational Models and the Institutional Geography of Executive Education in Maritime Transport	115
4.1.3. Contemporary Digital Tools for Socio-Psychological and AI-Supported Learning in Executive Education.....	116
4.2. The Hybrid Human Factor Model for Industry 5.0	118
4.2.1. Philosophical and Methodological Foundations of the Hybrid Model.....	120
4.2.2. Structure, Functional Logic, and Contributions of the Hybrid Model	121
4.2.3. Expected Outcomes and Empirical Validation of the Hybrid Human Factor Model.....	128
4.3. Applied Dimensions of Human-Centric Learning in the Maritime and Inland Waterway Transport Sector: Simulations, VR/AR and Experiential Methods in Executive Education.....	130
4.3.1. From Classical Methodology to Experiential Knowledge	130
4.3.2. Immersive Technologies and Simulation-Based Training (VR/AR): From Environment to Impact	131
4.3.3. International Practices and an Implementation Roadmap (with a Focus on the Nikola Vaptsarov Naval Academy)	134
CHAPTER V	139
SPECIALIZED TRAINING PROGRAMMES FOR LEADERSHIP AND SOFT SKILLS DEVELOPMENT IN THE MARITIME AND INLAND WATERWAY TRANSPORT SECTOR	139
5.1. System of Specialized Programs Supporting the Hybrid Human Factor Model for Industry 5.0	140
5.1.1. Conceptual Foundations and Content of the Specialized Training Programs.....	140

5.1.2. Soft Skills for Maritime Leaders in the Era of Industry 5.0	143
5.1.3. Programme “Intercultural Leadership and Team Management in Maritime Transport in the Context of Industry 5.0”	144
5.1.4. Organizational Culture and Change Management in the Era of Industry 5.0.....	145
5.1.5. Expected Outcomes and Contribution of the Proposed Programmes	146
5.2. System of Training Formats Supporting the Hybrid Model for Human Factor Development.....	148
5.2.1. Concepts and Content of the Developed Specialized Training Programs.....	148
5.2.2. FLOWSTATE Training – Cognitive Synchrony and Collective Intelligence... 150	
5.2.3. HUMANCODE Training – Communication, Influence, and Social Intelligence.....	151
5.2.4. DEEPWATER Training – Leadership and Resilience in a Real Maritime Environment.....	152
5.2.5. Expected Outcomes and Contribution of the Specialized Trainings.....	153
5.3. Validation of the Developed Trainings and the Hybrid Human Factor Model for Industry 5.0	155
5.3.1. Methodological Framework of the Validation.....	156
5.3.2. Alignment Between Empirical Results and the Content of the Trainings	156
CONCLUSION	160
CONTRIBUTIONS OF THE MONOGRAPH.....	162
I. Theoretical Contributions	162
II. Methodological Contributions	162
III. Empirical Contributions.....	163
IV. Practical-Applied Contributions	163
Summary of Contributions	163
LIST OF LITERATURE.....	166
