German Abstract	I
Acknowledgments	V
List of Figures	IX
List of Tables	XI
List of Symbols	XIII
1 Introduction	1
1.1 Motivation and Aims of the Dissertation	1
1.2 Course of Investigation	2
2 The Use of Clusters for Econometric Modeling	5
2.1 Theoretical Background	5
2.2 Overview of the Employed Clustered Modeling Approaches	6
3 Cultural Differences and Elite Labor Migration	9
3.1 Introduction	9
3.2 Related Literature	12
3.3 Measuring Differences in National Culture	15
3.4 Hypotheses	18
3.5 The Empirical Study	19
3.5.1 The Data	19
3.5.2 The Empirical Model	27
3.5.3 Empirical Results	29
3.5.4 Robustness Checks	35
3.6 Interim Conclusion	47
4 Understanding Consumer Engagement in Sports	51
4.1 Introduction	51

4.2	Literature	53
4.3	Hypotheses	56
4.4	The Empirical Study	57
4.4.1	The Data	57
4.4.2	The First Stage: Determining Match Outcomes	65
4.4.3	The Second Stage: The Effect of Outcome Uncertainty	72
4.4.4	Robustness	80
4.5	Interim Conclusion	84
5	ML-Based Variable Selection for Credit Risk Modeling	85
5.1	Introduction	85
5.2	Shapley-Based Clustering	89
5.3	Theoretical and Regulatory Background	93
5.3.1	Statistical Learning Theory	94
5.3.2	Application of Statistical Learning Theory to Clustered Risk Mod- eling	96
5.3.3	Regulatory Background	98
5.4	Empirical Framework	100
5.4.1	Data	100
5.4.2	Competitive Modeling Approaches	104
5.4.3	Empirical Setup	107
5.5	Empirical Results	109
5.5.1	Variable Importance Measure	109
5.5.2	Cluster Analysis	109
5.5.3	Comparative analysis	113
5.6	Robustness Check	116
5.7	Interim Conclusion	119
6	Conclusion	123
	Bibliography	125
A	Supplementary Figures and Tables	137
A.1	Supplementary Material: Chapter 3	137
A.2	Supplementary Material: Chapter 4	141
A.3	Supplementary Material: Chapter 5	143
