Abstract	iv
Acknowledgement	v
Table of contents	vi
CHAPTER ONE	
1.0. Introduction	1
1.1. An Overview of Nigerian Agriculture	1
1.2. Nigeria's food situation	6
1.3. Conceptual framework	8
1.3.1. Roles of efficiency and productivity in agricultural development	8
1.3.2. Diversification of farm activities and agricultural efficiency	10
1.4. Motivation of the study	13
1.5. Objectives of the study	15
1.6. Organization of the study	15
References	17
CHAPTER TWO	
2.0. Theoretical foundation	23
2.1. Introduction	23
2.2. Historical perspective of efficiency methodology	23
2.2.1 Production theory and production function	23

	Page
2.2.2. Production frontiers: Definitions and theoretical framework	25
2.2.3. Techniques of efficiency measurement	28
2.2.4. The econometric approach to efficiency measurement	29
2.2.4.1. The stochastic frontier Analysis (SFA)	30
2.2.4.2. Technical efficiency measurement in SFA Production model	31
2.2.4.3. Incorporating exogenous variables in SFA production model	32
2.2.5. The extension of the SFA model: Stochastic <i>Output distance function</i>	35
2.3. Conclusions	38
References	39
CHAPTER THREE	
3.0. A meta-analysis of technical efficiency studies in Nigerian agriculture (Paper I)	43
3.1. Introduction	43
3.2. A review of stochastic frontier methodology and meta-analysis	45
3.2.1. Stochastic frontier methodology	45
3.2.2. Meta-analysis	46
3.3. Methodology	47
3.3.1. Data source and description	47
3.3.2. Empirical model	49
3.4. Results and discussion	51
3.4.1. Development of ATE in the Nigerian agriculture	51
3.4.2. Distribution of ATE by the selected attributes of the studies	52

	Page
3.4.3. The Meta-regression analysis result	53
3.4.4. Identification of the key drivers of ATE from the studies	55
3.5. Summary and conclusions	56
Case Studies	58
References	64
CHAPTER FOUR	
4.0. Crop Diversification & Technical Efficiency of Smallholder Farms in Nigeria (Paper II)	67
4.1. Introduction	67
4.2. A Review of efficiency and diversification literatures	69
4.3. Methodology	72
4.3.1. The Data and Study Area	72
4.3.2. Analytical Framework	73
4.3.3. Empirical model	74
4.4. Results and discussion	76
4.4.1. The development and trends in crop diversification	76
4.4.2. Hypotheses tests	80
4.4.3. The elasticities and returns to scale	81
4.4.4. Technical inefficiency effects	82
4.4.5. Estimated technical efficiency	86
4.5. Conclusions and policy implications	87
References	89

	Page
CHAPTER FIVE	
5.0. Estimating technical efficiency, input substitution and complementary effects using output distance function: Cassava production in Nigeria (Paper III)	97
5.1. Introduction	97
5.2. Theoretical framework	100
5.2.1. The multiple outputs and distance function	100
5.2.2. Stochastic frontier output distance function	103
5.2.3. Scope economies, inputs substitution and complementary biases	108
5.3. Methodology	111
5.3.1. The data and study area	111
5.3.2. Empirical model	111
5.4. Results and Discussion	114
5.4.1. Results of hypotheses	114
5.4.2. Resource-Productivity in cassava production	114
5.4.3. Cross-terms effect (biases) of the inputs	116
5.4.4. Technical inefficiency effect	117
5.4.5. Technical efficiency estimates	118
5.5. Conclusions	121
References	122

	Page
CHAPTER SIX	
6.0. Summary, conclusions and policy implications and directions for future research	127
6.1. Introduction	127
6.2. Summary of major findings from the papers	127
6.3. Conclusions and policy implications	129
6.4. Directions for future research	132
APPENDICES	
Appendix A: Description of the study area and data for the paper II and III	135
Appendix B: Questionnaire for the paper II and III	137
Appendix C: Curriculum Vitae	143
Appendix D: Tables and figures	148
