Abstract		III
List of al	List of abbreviations	
List of ta	List of tables	
List of figures		XVIII
1	Introduction	1
2	Literature review	3
2.1	Molecular genetic approach for disease resistance and improved	
	health in porcine	3
2.2	Immune system	6
2.2.1	Innate immunity	6
2.2.2	Adaptive immunity	8
2.3	Complement system	9
2.3.1	Complement activation	9
2.3.1.1	Alternative complement pathway	10
2.3.1.2	Classical complement pathway	11
2.3.1.3	Lectin complement pathway	11
2.3.1.4	Lytic complement pathway	12
2.3.2	Complement regulation	12
2.3.3	Functions of the complement system	13
2.3.4	Complement genetics	14
2.4	Complement component C3	14
2.4.1	Biosynthesis of C3	15
2.4.2	C3 molecule characterization	15
2.4.3	C3 molecule activation and its biological activities	16
2.4.4	C3 genetics	18
2.4.4.1	Structure and sequence of C3 gene	18
2.4.4.2	Nucleotide sequence at the 5'- and 3'-flanking regions of C3 gene	19

2.4.4.3	Mapping of C3 gene	20
2.4.4.4	C3 polymorphisms	21
3	Materials and methods	25
3.1	Materials	26
3.1.1	Animals	26
3.1.1.1	DUMI-Resource population	26
3.1.1.2	Thai native pigs	29
3.1.1.3	Commercial pigs	29
3.1.2	Materials for laboratory analysis	30
3.1.2.1	Chemicals, biological materials, kits and other materials	30
3.1.2.2	Reagents and media	31
3.1.3	Used softwares	35
3.1.4	Equipment	35
3.2	Molecular genetic methods	35
3.2.1	General molecular genetic methods	36
3.2.1.1	DNA isolation	36
3.2.1.2	RNA isolation and cDNA synthesis	36
3.2.1.3	Polymerase chain reaction	38
3.2.1.4	Cloning and sequencing of PCR fragments	38
3.2.2	Identification of nucleotide sequence of porcine $C3$ gene and the 5'-	
	and 3'-flanking regions	40
3.2.2.1	Sequencing of the C3 gene	40
3.2.2.2	Sequencing the 5'- and 3'-flanking regions of porcine $C3$	42
3.2.3	Screening of polymorphism in the porcine $C3$ gene and in the 5'-	
	and 3'-flanking regions	43
3.2.4	Development of simple methods to genotype the porcine $C3$	
	polymorphisms	45
3.2.4.1	Single strand conformation polymorphism (SSCP) analysis	46
3.2.4.2	PCR-RFLP	46
3.2.4.3	Allele specific-PCR	46

3.2.4.4	PCR-Simple sequence length polymorphism (SSLP) analysis	47
3.3	Immunological methods	47
3.3.1	Complement activity	48
3.3.1.1	Alternative complement activity	48
3.3.1.2	Classical complement activity	49
3.3.2	Complement component C3 protein	49
3.3.3	Antibody titre against bacterial and viral vaccine	49
3.3.3.1	Antibody titre against Mycoplasma vaccine	49
3.3.3.2	Antibody titre against Aujeszky vaccine	50
3.3.3.3	Antibody titre against PRRS vaccine	51
3.3.4	Lymphocyte proliferation assay	51
3.4	Association analysis between C3 markers and immunological traits	52
4	Results	53
4.1	Sequence information of porcine complement component $C3$ gene	53
4.1.1	cDNA sequence of porcine complement $C3$ gene	53
4.1.2	Nucleotide sequence of the 5'-flanking region of porcine	
	complement C3 gene	60
4.1.3	Nucleotide sequence of the 3'-flanking region of porcine	
	complement C3 gene	63
4.2	Screening for polymorphism in the porcine $C3$ gene and developing	
	a simple method for genotyping the allelic polymorphisms	63
4.2.1	Polymorphisms in the porcine $C3$ gene and in the 5'- and 3'-	
	flanking regions	64
4.2.1.1	Polymorphisms in the porcine $C3$ gene	65
4.2.1.2	Polymorphisms in the 5'-flanking region of porcine $C3$ gene	65
4.2.1.3	Polymorphisms in the 3'-flanking region of porcine $C3$ gene	67
4.2.2	Development of simple methods for genotyping the allelic	
	polymorphisms	67
4.2.2.1	SSCP analysis	68
4.2.2.2	PCR-RFLP analysis	69

71 4.2.2.3 Allele specific PCR analysis 4.2.2.4 SSLP analysis 72 4.3 Genetic variation of the porcine C3 gene 73 4.3.1 Genetic variation of the porcine C3 gene in the DUMI-resource population 73 4.3.2 Genetic variation of the porcine C3 gene in the unrelated animals 76 Association analysis of the porcine C3 markers with the 4.4 immunological parameters 77 82 4.4.1 Association between the C3 markers and the complement traits 4.4.1.1 Association between the C3 markers and the alternative complement 83 activity 4.4.1.2 Association between the C3 markers and the classical complement activity 84 4.4.1.3 Association between the C3 markers and the serum complement C3c 85 protein 4.4.2 Association between the C3 markers and the antibody titre against Mycoplasma, Aujeszky and PRRS vaccines 86 Association between the C3 markers and the porcine lymphocyte 4.4.3 proliferation trait 87 5 89 Discussion 5.1 Sequencing and identification of polymorphisms of the porcine C3gene and development of simple protocols for large scale 90 genotyping 5.1.1 Sequencing of the porcine C3 gene including the 5'- and 3'-flanking 90 regions 5.1.2 Identification the polymorphisms in the porcine C3 gene and the 5'and 3'-flanking regions 93 5.1.3 Simple methods for genotyping porcine C3 polymorphisms 95 97 5.2 Genetic variation in the porcine C3 gene

5.3	Association between the porcine $C3$ variation and the	
	immunological parameters	98
5.3.1	Association between the porcine $C3$ markers and the complement	
	activity traits	98
5.3.2	Association between the porcine $C3$ markers and the serum	
	complement C3 protein levels	100
5.3.3	Association between the porcine $C3$ markers and the adaptive	
	immunity	103
5.4	Future prospects for investigation of candidate genes in	
	complement activity and general immune responsiveness in pigs	105
6	Summary	109
7	Zusammenfassung	113
