

Table of content

Acknowledgement	I
Table of content	II
List of Tables	IV
List of Figures	V
List of Abbreviations	VI
1. General introduction and outline	1
2. Abstract	4
3. Botanical insecticide identification and production	6
3.1 Introduction.....	6
3.2 Materials and methods.....	10
3.2.1 Plant selection.....	10
3.2.2 Extraction, purification and identification of bioactive compound from selected plant.....	14
3.2.3 Determination of insecticidal properties of surangin B....	17
3.2.4 Formulation of mammea insecticide.....	18
3.3 Results and discussion.....	20
3.3.1 Plant selection.....	20
3.3.2 Extraction, purification and identification of active compounds from selected plant.....	21
3.3.3 Determination of insecticidal properties of surangin B....	25
3.3.4 Formulation of mammea insecticide.....	28
3.4 Conclusion.....	31
References.....	31
4. Efficiency of mammea insecticide on production and quality parameters of Chinese kale	37
4.1 Introduction.....	37
4.2 Materials and methods.....	40
4.2.1 Efficiency of mammea insecticide on insect pests in the experimental field.....	40

4.2.2 Effect of mammea insecticide on Chinese kale in net greenhouse.....	42
4.3 Results and discussion.....	51
4.3.1 Efficiency of mammea insecticide on insect pests in the experimental field.....	51
4.3.2 Effect of mammea insecticide on Chinese kale in the net greenhouse.....	55
4.4 Conclusion.....	64
References.....	65
5. Effect of mammea insecticide on the ecosystem.....	71
5.1 Introduction.....	71
5.2 Materials and methods.....	74
5.2.1 Determination of residues in Chinese kale, soil and water.....	74
5.2.2 Toxicity of mammea insecticide on some living organisms.....	79
5.3 Results and discussion.....	82
5.3.1 Determination of residues in Chinese kale, soil and water.....	82
5.3.2 Toxicity of mammea insecticide on living some organisms.....	87
5.4 Conclusion.....	91
References.....	92
6. General conclusion.....	97
Future study.....	99
Curriculum vitae	100
