

Table of contents

Table of contents	i
List of Tables.....	iv
List of Figures	v
Acronyms and Abbreviations	vii
1. General introduction.....	1
2. Application of HACCP to the supply and processing chain of Horro beef animals in Ethiopia	7
2.1. Introduction	9
2.2. Materials and Methods.....	11
2.2.1. <i>Description of the supply chain and slaughter operation.....</i>	<i>11</i>
2.2.2. <i>Sampling and hazard assessment plan</i>	<i>14</i>
2.2.3. <i>Hazard enumeration.....</i>	<i>16</i>
2.2.4. <i>Hazard confirmatory tests</i>	<i>17</i>
2.2.5. <i>Selective detection of high risk posing hazards</i>	<i>17</i>
2.2.5.1. <i>Selective enrichment.....</i>	<i>17</i>
2.2.5.2. <i>Immunomagnetic separation</i>	<i>18</i>
2.2.5.3. <i>Sub-cultivation.....</i>	<i>19</i>
2.2.5.4. <i>Biochemical confirmation and serotyping.....</i>	<i>19</i>
2.2.6. <i>Data analysis</i>	<i>20</i>
2.3. Results and Discussion.....	20
2.3.1. <i>Enumeration and identification of the hazards</i>	<i>20</i>
2.3.2. <i>Critical control points and limits.....</i>	<i>26</i>
2.4. Implications	32

3. Assessment of the sensory quality and shelf stability of selected Horro beef muscles in Ethiopia.....	37
3.1. Introduction	38
3.2. Materials and Methods.....	40
3.2.1. Panel description.....	40
3.2.2. Sensory parameters and test procedures	41
3.2.3. Experimental animals and carcass grading.....	41
3.2.4. Muscles and sample preparations.....	42
3.2.5. Warner-Bratzler shear force determination	43
3.2.6. CIE 1976 L* a* b* color values.....	43
3.2.7. Data analysis	44
3.3. Results.....	45
3.3.1. General carcass characteristics	45
3.3.2. Sensory attributes and WBSF values of beef muscles.....	45
3.3.3. L*-color values	46
3.3.4. a*-color values	47
3.3.5. b*-color values and saturation indices.....	51
3.3.6. Relationships among sensory attributes & objective parameters.....	52
3.4. Discussion.....	53
3.4.1. Sensory and color attributes of beef muscles	53
3.4.2. Relationships among studied parameters	55
3.5. Implications	56
4. The effect of <i>postmortem</i> storage on μ-calpain activity, proteins Titin & Troponin-T, and derivatives of myoglobin in six Horro beef muscles in Ethiopia.....	61
4.1. Introduction	62
4.2. Materials and Methods.....	64
4.2.1. Management of the animals and the skeletal muscles.....	64
4.2.2. Calpain zymogram	65
4.2.2.1. Native casein gels.....	65

4.2.2.2. <i>Sample homogenization</i>	66
4.2.2.3. <i>Electrophoresis</i>	66
4.2.2.4. <i>Calpain activity assay</i>	67
4.2.3. <i>Western blotting</i>	67
4.2.3.1. <i>SDS- PAGE analysis of titin and troponin-T</i>	68
4.2.3.2. <i>Sample homogenization</i>	68
4.2.3.3. <i>Electrophoresis and membrane transfer condition</i>	68
4.2.3.4. <i>Immunoblotting assay of titin and troponin-T</i>	69
4.2.4. <i>Myoglobin species</i>	70
4.2.4.1. <i>Equine metmyoglobin preparations</i>	70
4.2.4.2. <i>Extraction of the samples</i>	70
4.2.4.3. <i>Determination of MMb reductase activity</i>	71
4.2.4.4. <i>Myoglobin species concentration</i>	72
4.2.5. <i>CIE 1976 L*a*b* color values</i>	72
4.2.6. <i>Cooked meat WBSF evaluation</i>	73
4.2.6.1. <i>Cooking procedure</i>	73
4.2.6.2. <i>Shear force evaluation</i>	73
4.2.7. <i>pH measurements</i>	74
4.2.8. <i>Statistical analysis</i>	74
4.3. <i>Results and Discussion</i>	75
4.3.1. <i>The activity of calpains</i>	75
4.3.2. <i>Western blot analysis of myofibrillar proteins titin & Troponin-T</i>	78
4.3.3. <i>CIE lab values, Myoglobin species, & myoglobin reductase activity</i> ..	81
4.4. <i>Implications</i>	83
5. General Discussion	91
6. Summary	97
7. General References	101
Acknowledgement	103

List of Tables

Table 2.1. Types and distribution frequencies of identified hazards within the supply and processing	25
Table 2.2. Hazard distribution along process stages and suggested CCP of the hazards identified	28
Table 3.1. Descriptive statistics of fifteen carcass traits	46
Table 3.2. LSMEAN of sensory attributes and WBSF (kg/cm ²) for six selected muscles.....	48
Table 3.3. LSMEAN of L*-values of steaks from six muscles over six retail case days	49
Table 3.4. LSMEAN for a*-values of steaks from six muscles over six retail show days	50
Table 3.5. LSMEAN of b*-values and saturation index of six muscles	51
Table 3.6. Correlation coefficients of sensory & shelf stability parameters of six muscles.....	52
Table 4.1. Mean band density of μ -calpain activity (image density units/gm tissue), CWBSF (kg/cm ²) and cooking loss (%) for six Horro beef muscles aged for day 1 and 7 <i>postmortem</i>	77
Table 4.2. LSMEAN of L*a*b* values, MRA (activity/mg Mb), Oxymyoglobin (%) and Metmyoglobin (%) of six Horro beef muscles.....	82
