<b>Abstract .....</b>	<b>i</b>
<b>Zusammenfassung .....</b>	<b>v</b>
<b>Abbreviations .....</b>	<b>xiii</b>
<b>1 General introduction.....</b>	<b>1</b>
<b>1.1 Origin and distribution of grasshoppers and locusts.....</b>	<b>1</b>
<b>1.2 Biology and ecology of locust and grasshopper .....</b>	<b>2</b>
1.2.1 The Senegalese grasshopper <i>Oedaleus senegalensis</i> .....	2
1.2.2 The desert locust <i>Schistocerca gregaria</i> .....	3
1.2.3 Other Locusts and Grasshoppers .....	4
<b>1.3 Host plants and economic importance of locusts and grasshoppers .....</b>	<b>4</b>
<b>1.4 Management options .....</b>	<b>5</b>
1.4.1 Chemical control strategies.....	5
1.4.2 Biological control as alternative to conventional pesticides .....	6
<b>1.5 The entomopathogenic fungi.....</b>	<b>6</b>
1.5.1 Life cycle of entomopathogenic fungi .....	7
<b>1.6 The Microsporidian, <i>Paranosema locustae</i> .....</b>	<b>8</b>
1.6.1 Transmission and dissemination of <i>Paranosema locustae</i> .....	9
<b>1.7 The PRéLISS Programme.....</b>	<b>10</b>
<b>1.8 Research objectives .....</b>	<b>11</b>
<b>2 Evaluation of the persistence of <i>Paranosema locustae</i> (Microsporidia: Nosematidae) in Cape Verde and Senegal, two African ex-release countries of the pathogen .....</b>	<b>13</b>
<b>2.1 Abstract .....</b>	<b>13</b>

<b>2.2</b>	<b>Introduction .....</b>	<b>14</b>
<b>2.3</b>	<b>Materials and methods .....</b>	<b>15</b>
2.3.1	Site description.....	15
2.3.2	Sampling methods.....	15
2.3.3	Diseases diagnosis.....	16
<b>2.4</b>	<b>Results .....</b>	<b>17</b>
2.4.1	Grasshopper collection .....	17
2.4.2	Pathogens detected by microscopic observation .....	20
2.4.3	Occurrence of <i>P. locustae</i> in collected grasshoppers.....	21
<b>2.5</b>	<b>Discussion.....</b>	<b>23</b>
<b>3</b>	<b>Susceptibility of immature stages of <i>Schistocerca gregaria</i> and <i>Oedaleus senegalensis</i> (Orthoptera: Acrididae) to <i>Paranosema locustae</i> (Microsporidia: Nosematidae) and its vertical transmission in the infected Adults.....</b>	<b>25</b>
<b>3.1</b>	<b>Abstract .....</b>	<b>25</b>
<b>3.2</b>	<b>Introduction .....</b>	<b>26</b>
<b>3.3</b>	<b>Material and methods .....</b>	<b>27</b>
3.3.1	Study organisms .....	27
3.3.2	Susceptibility of immature stages of <i>S. gregaria</i> and <i>O. senegalensis</i> to <i>P. locustae</i> .....	27
3.3.3	Effect of <i>P. locustae</i> on host fecundity and its vertical transmission in F1 generation .....	28
3.3.4	Effect of <i>P. locustae</i> on the growth of <i>O. senegalensis</i> and <i>S. gregaria</i> ..	28
3.3.5	Examination for <i>P. locustae</i> infection .....	29
3.3.6	Analysis of data.....	29

<b>3.4 Results</b> .....	<b>30</b>
3.4.1 Susceptibility of immature stages of <i>S. gregaria</i> and <i>O. senegalensis</i> to <i>P. locustae</i> .....	30
3.4.2 Effect of <i>P. locustae</i> on the host growth .....	33
3.4.3 Effects of <i>P. locustae</i> infection on host fecundity and its vertical transmission.....	35
<b>3.5 Discussion</b> .....	<b>38</b>
<b>4 Interaction between <i>Paranosema locustae</i> (Microsporidia: Nosematidae) and Green Muscle<sup>®</sup>, <i>Metarhizium anisopliae</i> var. <i>acridum</i> (Deuteromycotina: Hyphomycetes) infecting the desert locust <i>Schistocerca gregaria</i> (Orthoptera: Acrididae)</b> .....	<b>42</b>
<b>4.1 Abstract</b> .....	<b>42</b>
<b>4.2 Introduction</b> .....	<b>43</b>
<b>4.3 Materials and Methods</b> .....	<b>44</b>
4.3.1 Study organisms .....	44
4.3.2 Inoculation of hosts.....	45
4.3.3 Data collection.....	46
4.3.4 Analysis of data.....	47
<b>4.4 Results</b> .....	<b>48</b>
4.4.1 Host mortality.....	48
4.4.2 Pathogen spore production .....	51
<b>4.5 Discussion</b> .....	<b>55</b>
<b>5 Field efficacy of <i>Paranosema locustae</i> (Microsporidia: Nosematidae) and Green Muscle<sup>®</sup>, <i>Metarhizium anisopliae</i> var. <i>acridum</i> (Deuteromycotina: Hyphomycetes) in wheat bran application for the control of locusts and grasshoppers in Sahel</b> .....	<b>59</b>

<b>5.1 Abstract .....</b>	<b>59</b>
<b>5.2 Introduction .....</b>	<b>60</b>
<b>5.3 Materials and Methods .....</b>	<b>61</b>
5.3.1 Field Site .....	61
5.3.2 Bait formulation and application .....	62
5.3.3 Population structure and cage incubation samples.....	63
5.3.4 Population density monitoring.....	64
5.3.5 Prevalence of <i>P. locustae</i> and its level of infection in field surviving adult <i>O. senegalensis</i> , <i>A. blondeli</i> and <i>P. cognata</i> .....	64
5.3.6 Analysis of data.....	65
<b>5.4 Results .....</b>	<b>65</b>
5.4.1 Meteorological conditions.....	65
5.4.2 Population structure .....	67
5.4.3 Population development .....	69
5.4.4 Cage incubation .....	71
5.4.5 Prevalence of <i>P. locustae</i> and its level of infection in field surviving adult <i>O. senegalensis</i> , <i>A. blondeli</i> and <i>P. cognata</i> .....	73
<b>5.5 Discussion.....</b>	<b>75</b>
<b>6 General Discussion .....</b>	<b>79</b>
<b>7 References .....</b>	<b>87</b>
<b>8 Acknowledgements .....</b>	<b>108</b>
