

1	INTRODUCTION .....	2
2	CONCEPTUAL RESEARCH FRAMEWORK: THE CAPITAL-NEED- INSTITUTION-MODEL.....	6
2.1	CATEGORISING FORMS OF CAPITAL .....	8
2.1.1	<i>Biodiversity as an important component of natural capital</i> .....	9
2.1.2	<i>Physical capital: the neoclassical explanation</i> .....	10
2.1.3	<i>The role of human capital and perception</i> .....	11
2.1.4	<i>Financial capital and its multiple functions</i> .....	13
2.1.5	<i>Social capital and institutions</i> .....	15
2.2	THE MOTIVATING ENDS OF HUMAN ACTION.....	15
2.2.1	<i>Classification of needs</i> .....	18
2.3	THE ROLE OF INSTITUTIONS .....	23
2.3.1	<i>Utility maximisation and institutions</i> .....	24
2.3.2	<i>Transaction costs of institutions</i> .....	26
2.3.3	<i>Externalities and biodiversity conservation</i> .....	27
2.3.4	<i>Categorisation of enforcement instruments</i> .....	39
2.3.5	<i>The relation between different forms of institutions</i> .....	47
2.4	OUTCOMES OF ACTIONS .....	51
2.5	SUMMARY .....	53
3	PROJECT BACKGROUND AND METHODOLOGY .....	54
4	MUTOMPO/MILE 46.....	62
4.1	OVERVIEW OF THE MILE 46 LIVESTOCK DEVELOPMENT CENTRE .....	63
4.1.1	<i>Capital availability</i> .....	63
4.1.2	<i>Objectives of the research farm</i> .....	64
4.1.3	<i>Institutional framework</i> .....	64
4.2	CAPITAL AVAILABILITY OF MUTOMPO COMMUNITY .....	65
4.2.1	<i>Natural capital</i> .....	65
4.2.2	<i>Financial capital</i> .....	70
4.2.3	<i>Physical capital</i> .....	72
4.2.4	<i>Human capital</i> .....	74
4.3	MOTIVES FOR RESOURCE USE .....	76
4.4	INSTITUTIONS .....	83

4.4.1	<i>Traditional authority systems of the Mbunza</i> .....	83
4.4.2	<i>Ownership of land and natural resources</i> .....	84
4.4.3	<i>Regulation of access to natural resources</i> .....	85
4.4.4	<i>Incentives for agricultural intensification</i> .....	91
4.4.5	<i>Regulations for wood harvesting</i> .....	92
4.4.6	<i>Institutional measures to fight bush fires</i> .....	96
4.4.7	<i>Regulations for wildlife, fruits and grass</i> .....	98
4.4.8	<i>Water: the scarcest resource in inland Kavango settlements</i> .....	99
4.4.9	<i>Social capital and intra-community institutions</i> .....	108
4.4.10	<i>Pasture distribution</i> .....	110
4.5	CONCLUSION .....	115
5	OKAMBORO .....	118
5.1	THE CAPITAL AVAILABILITY OF THE OKAMBORO COMMUNITY .....	118
5.1.1	<i>Natural capital</i> .....	118
5.1.2	<i>Financial capital</i> .....	121
5.1.3	<i>Physical capital</i> .....	122
5.1.4	<i>Human capital</i> .....	123
5.2	MOTIVES OF RESOURCE USE .....	125
5.3	INSTITUTIONS .....	130
5.3.1	<i>Ownership and security of use rights</i> .....	130
5.3.2	<i>Access regulation to Okamboro land</i> .....	132
5.3.3	<i>Restrictions on resource use and use intensity</i> .....	134
5.3.4	<i>Affirmative Action Loan Scheme</i> .....	136
5.3.5	<i>Social capital and intra-community institutions</i> .....	139
5.3.6	<i>The informal pasture distribution</i> .....	140
5.3.7	<i>Enclosing of communal land</i> .....	145
5.3.8	<i>The impact of the water reform</i> .....	148
5.4	CONCLUSION .....	149
6	TIERVLEI/GELLAP OST .....	153
6.1	OVERVIEW OF THE GELLAP OST RESEARCH STATION .....	153
6.1.1	<i>Capital availability</i> .....	153
6.1.2	<i>Objectives of the research farm</i> .....	153
6.1.3	<i>Institutional framework</i> .....	154
6.2	THE TIERVLEI FARMING UNITS .....	155

6.3	THE CAPITAL AVAILABLE TO THE NABAOS COMMUNITY .....	156
6.3.1	<i>Natural capital</i> .....	156
6.3.2	<i>Financial capital</i> .....	162
6.3.3	<i>Physical capital</i> .....	164
6.3.4	<i>Human capital</i> .....	165
6.4	MOTIVES OF RESOURCE USE .....	167
6.5	INSTITUTIONS .....	172
6.5.1	<i>Ownership and access to land and natural resources</i> .....	172
6.5.2	<i>Access to emergency grazing and reactions to droughts</i> .....	176
6.5.3	<i>Limitations of grazing and browsing intensity</i> .....	177
6.5.4	<i>The impact of rural water supply reforms</i> .....	178
6.5.5	<i>Regulations of wood and wildlife resources</i> .....	180
6.5.6	<i>Intra-community institutions</i> .....	183
6.6	CONCLUSION .....	184
7	SOEBATSFONTEIN .....	187
7.1	THE CAPITAL AVAILABILITY IN THE SOEBATSFONTEIN COMMUNITY .....	188
7.1.1	<i>Natural Capital</i> .....	188
7.1.2	<i>Financial Capital</i> .....	191
7.1.3	<i>Physical Capital</i> .....	194
7.1.4	<i>Human Capital</i> .....	195
7.2	MOTIVES OF RESOURCE USE .....	196
7.3	INSTITUTIONS .....	198
7.3.1	<i>The role of land ownership</i> .....	200
7.3.2	<i>Access regulations and security of use rights</i> .....	202
7.3.3	<i>Resource use regulations</i> .....	204
7.3.4	<i>Local social structures as institutions and capital</i> .....	211
7.3.5	<i>Community institutions and natural resource management</i> .....	213
7.3.6	<i>Communal versus individual farm management</i> .....	215
7.3.7	<i>The Soebatsfontein community and the Namaqua National Park</i> .....	216
7.4	CONCLUSION .....	218
8	COMPARISON OF THE RESEARCH SITES AND INTER-REGIONAL DISCUSSION.....	220
8.1	CAPITAL AVAILABILITY.....	220
8.1.1	<i>Natural capital</i> .....	220

VI

8.1.2	<i>Financial capital</i> .....	223
8.1.3	<i>Physical capital</i> .....	225
8.1.4	<i>Human capital</i> .....	226
8.2	MOTIVES OF RESOURCE USE .....	228
8.3	THE ROLE OF INSTITUTIONS .....	236
8.3.1	<i>Ownership and use rights</i> .....	236
8.3.2	<i>Exclusion from and access to natural resources</i> .....	240
8.3.3	<i>Regulation of livestock numbers and pasture management</i> .....	245
8.3.4	<i>Regulation of non-grazing resources</i> .....	247
8.3.5	<i>The impacts of land reform</i> .....	252
8.3.6	<i>The impact of Namibian rural water reform</i> .....	255
8.3.7	<i>Social capital and intra-community institutions</i> .....	260
8.3.8	<i>Fencing of communal land</i> .....	261
8.3.9	<i>The role of customary law and traditional authorities</i> .....	263
8.3.10	<i>Cooperative Governance</i> .....	272
8.3.11	<i>Heterogeneity &amp; community choice</i> .....	275
9	CONCLUSION .....	278
