Abstract	i
Kurzzusammenfassung	iii
Zusammenfassung	v
1 Fundamentals of Optical Parametric Oscillators	1
1.1 The Nonlinear Optical Susceptibility	2
1.2 Electromagnetic Waves in Optically Nonlinear Media	3
1.2.1 Coupled Wave Equations	4
1.3 Optical Parametric Amplification	5
1.3.1 Coupled Wave Equations for Parametric Processes	5
1.3.2 Solution of the Coupled Wave Equations	6
1.3.3 Parametric Gain	8
1.4 Optical Parametric Oscillation	10
1.4.1 Threshold	10
1.4.2 Oscillation Conditions	12
1.4.3 Steady-State Efficiency and Idler Power	16
1.5 Phase Matching	18
1.5.1 Quasi Phase Matching	18
1.5.2 Parametric Bandwidth	23
1.6 Summary of OPO Fundamentals	25
2 Setup and Characterization of Optical Parametric Oscillators	27
2.1 Experimental Setup of OPOs	27
2.1.1 Pump Laser	28
2.1.2 Nonlinear Crystals and Crystal Oven	29
2.1.3 Signal Cavity	30

2.1.4	System Setup	36
2.2	OPO Performances	42
2.2.1	Idler Coverage and Tuning	43
2.2.2	Threshold	46
2.2.3	Idler Power	48
2.2.4	Linewidth and Frequency Stability	51
2.2.5	Beam Profile	53
2.3	Outlook	54
3	Action Spectroscopy of CH₂D⁺ using Laser Induced Reactions	57
3.1	Introduction	57
3.2	Laser Induced Reactions of CH ₂ D ⁺	59
3.3	Experimental Setup	60
3.3.1	22-pole ion trap	60
3.3.2	CW OPO	61
3.3.3	Calibration procedure	61
3.4	Measurement and Analysis	62
3.5	Conclusion and Outlook	66
4	Rovibrational Spectroscopy of the Silicon-Carbon Cluster Si₂C₃	69
4.1	Introduction	69
4.2	Spectrometer for transient molecules	71
4.2.1	CW OPO and Frequency Calibration	71
4.2.2	Production of Species	73
4.2.3	Detection Technique	73
4.3	Measurement and Analysis: Si ₂ C ₃	75
4.3.1	The ν_3 fundamental band	75
4.3.2	The $\nu_3 + \nu_7 - \nu_7$ hot band	79
4.4	Conclusion and Outlook	84
5	High-Resolution Spectroscopy of Small Carbon Clusters	87
5.1	Introduction	88
5.2	Experiments on linear C ₃	88
5.2.1	Experimental Setup	90
5.2.2	Measurements and Results: C ₃	90
5.2.3	Conclusion and Outlook	96
5.3	Experiments on linear C ₇	98
5.3.1	Spectrometer Setup	99
5.3.2	Measurements and Results: C ₇	100
5.3.3	Conclusion and Outlook	108
