**Forest in Climate Change Research and Policy: The
Role of Forest Management and Conservation in a
Complex International Setting**

Proceedings of the 2nd International DAAD Workshop 1st to
7th December 2011 Pietermaritzburg and Durban, South
Africa

Lutz Fehrmann, Christoph Kleinn (Eds.)

Proceedings of the 2nd International DAAD Workshop

Forests in Climate Change Research and Policy:
The Role of Forest Management and Conservation
in a Complex International Setting

1st to 7th December 2011
Pietermaritzburg and Durban, South Africa

Contents

Chapter one: Forest Management under Climate Change	1
Forestry and Forestry research in South Africa <i>T. Seifert, C. Ham and B. du Toit</i>	3
Are there lessons to be learned from forestry in Germany? <i>H. H. Höfle</i>	13
Gunung Walat Educational Forest: from bare land to forest stand <i>E. Fajriani, I. Ekanasty, B. Prihanto and Y.S. Hadi</i>	23
The Role of Deforestation and Afforestation for the Global Carbon Sequestration <i>A. Dohrenbusch</i>	31
Technical Framework of Plantation Management towards Increasing Carbon stocks and Multi-functional Forest Service in China <i>Y. Lu, X. Liu, T. Li, X. Le and J. Meng</i>	41
Assisted migration – epoch making idea or human haughtiness <i>M. Piepenschneider</i>	49
Chapter two: Policy Issues of Climate Change	59
Forests and climate change: research and policy issues in India <i>S.S. Negi</i>	61
A Review of South African Forest Policy: Gearing Up for Climate Change <i>J. Roux and R. Hans</i>	67
Financing forestry in Uganda: the potential of REDD+ to increase forest conservation area <i>G. Wathum</i>	79
Climate Change Response in the Forestry Sector- Kenya's Experience <i>R. A. Akombo</i>	87
A review on opportunities and constraints of A/R-CDM projects in developing countries <i>P.P. Lwin and I. Kikoti</i>	95
Chapter three: Monitoring, Reporting and Verification	105
Forest monitoring issues in climate change research and policy <i>C. Kleinn, L. Fehrmann and A. Knohl</i>	107
Risk Mapping for Commercial Forestry in South Africa: The ICFR Perspective <i>I. Germishuizen</i>	121
Forest monitoring for REDD+: challenges in mapping forest carbon <i>P. Mundhenk</i>	129
Modelling global data of climate and vegetation to a local scale; the case of Costa Rica, Central America <i>M. Vega-Araya, H. Fuchs, H. Aberle und C. Kleinn</i>	137

Chapter four: Forest Fires	149
Management and research on Afromontane and Afrotemperate forests in South Africa <i>G.H.C. Jooste</i>	151
Reconstructing past fire regimes: applications and relevance to fire management <i>M. A. González Tagle, J. J. Pérez and D. Y. Avila Flores</i>	157
The insulation capacity of tree bark against fire damage in the Western Cape Region, South Africa <i>B. Odhiambo and T. Seifert</i>	167
Chapter five: Potential for REDD: Examples and Case Studies	173
Reducing emissions from deforestation and forest degradation: the potential and challenges for Mozambique <i>A. Sítio, B. Guedes and R. Mate</i>	175
The effect of income from non-timber forest products on rural poverty and income inequality: a case study from the dry woodland areas of Tigray, Ethiopia <i>A. Mohammed, M. Tilahun, B. Muys, E. Mathijs and A. Gidey</i>	185
Methods for valuing dry land forests in the context of REDD+ and the role of multidisciplinary sciences <i>M. Tilahun, B. Muys, E. Mathijs and B. Verbist</i>	193
When there is not enough milk and meat! Would improved management of dryforests and product marketing contribute to the adaptive capacity of pastoral and agro-pastoral communities and to environmental resilience in Ethiopia? <i>A. Worku, J. Pretzsch, H. Kassa and H. Uibrig</i>	201
Mountain Forest Conservation for Ecosystem Services in the Climate Change Context: Experience from Nepal and Tanzania <i>S. Ghimire and I. H. Mkwiru</i>	213
Community Forest Enterprises in Developing Countries: A Potential Strategy for Climate Change Mitigation and Adaptation <i>S. Charmakar and E. Chivhenge</i>	223
The role of tropical forests in counteracting climate change and poverty: Case studies from Colombia and Ecuador <i>J. C. Camargo and B. Torres</i>	235
Opportunities and challenges for tree crop integration in REDD+: Cocoa crops in Ghana and Colombia <i>M. A. Montes and I. Abdulai</i>	251
Analysis of the sustainability of Adaptation to the Impact of Rapid Glacier Retreat in the Tropical Andes Project (PRAA) in the Shullcas sub-basin of the Mantaro river, Junín, Peru <i>N. Reátegui</i>	261
REDD+ Strategy beyond the Forestry Sector: Analysis of the Agricultural Policies and their Impacts on the Drivers of Deforestation in Brazil and Zambia <i>P. M. R. Franco de Oliveira1 and A. Chilombo</i>	271
