# TABLE OF CONTENTS

ACKNOWLEDGEMENTS .....	V
TABLE OF CONTENTS.....	IX
LIST OF ABBREVIATIONS .....	XIII
1 GENERAL INTRODUCTION .....	3
1.1 BACKGROUND .....	3
1.2 NORTHERN MOUNTAINOUS REGION OF VIETNAM.....	4
1.2.1 Swidden cultivation.....	5
1.2.2 Rice production .....	7
1.2.3 Nitrogen (N) and Carbon (C) cycles in paddy fields.....	8
1.2.4 Linkage upland- lowland.....	9
1.3 CHIENG KHOI COMMUNE .....	10
1.4 TECHNIQUES TO ANALYZE UPLAND – LOWLAND RELATIONSHIPS .....	14
1.4.1 Nutrient distribution at landscape level.....	14
1.4.2 Nutrient and water availability in crop production systems .....	18
1.5 JUSTIFICATION.....	20
1.6 HYPOTHESES .....	21
1.7 GOAL AND OBJECTIVES .....	22
1.8 OUTLINE OF THE STUDY .....	22
2 REDISTRIBUTION OF CARBON AND NITROGEN THROUGH IRRIGATION IN INTENSIVELY CULTIVATED TROPICAL MOUNTAINOUS WATERSHEDS .....	25
2.1 ABSTRACT .....	25
2.2 KEYWORDS.....	26
2.3 INTRODUCTION.....	26
2.4 MATERIALS AND METHODS.....	28
2.4.1 Experimental site.....	28
2.4.2 Total organic carbon and total nitrogen fluxes in irrigation water.....	30
2.4.3 Data analysis .....	31
2.5 RESULTS.....	36
2.5.1 Hydrological characterization of the subwatershed .....	36
2.5.2 Hydrochemical characterization of reservoir and irrigation water along the channel.....	37
2.5.3 Flow components and their contribution to organic C and total N loads.....	39

2.6	DISCUSSION.....	46
2.6.1	Effect of a surface water reservoir on C and N redistribution.....	46
2.6.2	Contribution of overland flow on the redistribution of C and N.....	48
2.6.3	Contribution of irrigation water to C and N transport to paddy fields .....	49
2.7	CONCLUSION .....	50
3	SEDIMENT INDUCED SOIL SPATIAL VARIATION IN PADDY FIELDS OF NORTHWEST VIETNAM .....	55
3.1	ABSTRACT .....	55
3.2	KEY WORDS.....	56
3.3	INTRODUCTION.....	56
3.4	MATERIAL AND METHODS.....	59
3.4.1	Experimental site.....	59
3.4.2	Sediment transportation-deposition pathways into paddy fields.....	61
3.4.3	Experimental design.....	61
3.4.4	Soil properties along the cascades.....	63
3.4.5	Statistical analysis on spatial variability .....	65
3.5	RESULTS.....	67
3.5.1	Exploratory analysis of soil properties.....	67
3.5.2	Spatial variability of soil fertility at cascade level before transplanting .....	68
3.5.3	Spatial variability induced by sediment deposits .....	71
3.5.4	Spatial variability at landscape level.....	73
3.6	DISCUSSION.....	74
3.6.1	Sediment induced spatial variability through irrigation at cascade level.....	74
3.6.2	Sediment induced spatial variability in soil fertility depending on sediment origin.....	75
3.7	CONCLUSION .....	76
4	LINKING SPATIO-TEMPORAL VARIATION OF CROP RESPONSE WITH SEDIMENT DEPOSITION ALONG PADDY RICE TERRACES.....	81
4.1	ABSTRACT .....	81
4.2	KEYWORDS.....	82
4.3	INTRODUCTION.....	82
4.4	MATERIALS AND METHODS.....	84
4.4.1	Experimental site.....	84
4.4.2	Experimental design.....	86

4.4.3	Soil fertility along the cascades.....	88
4.4.4	Crop performance along the cascades.....	88
4.4.5	The use of stable isotopes in understanding crop response.....	89
4.4.6	Statistical analysis on spatial variability .....	90
4.5	RESULTS.....	91
4.5.1	Exploratory analysis of crop performance .....	91
4.5.2	Spatial variability of crop performance at cascade level.....	92
4.5.3	Linkage of crop performance with soil fertility .....	94
4.5.4	Spatial variability in water availability and $\delta^{13}\text{C}$ signals in rice .....	96
4.5.5	N use efficiencies and $\delta^{15}\text{N}$ signals in rice and soil .....	98
4.6	DISCUSSION.....	99
4.6.1	Sediment induced spatial variability in crop performance depending on sediment origin ...	99
4.6.2	Water and N availability overshadowing sediment-induce spatial variability of rice yield .....	102
4.7	CONCLUSIONS .....	106
5	WHY DO PEOPLE NOT LEARN FROM FLOOD DISASTERS? EVIDENCE FROM VIETNAM'S NORTHWESTERN MOUNTAINS .....	109
5.1	ABSTRACT .....	109
5.2	KEYWORDS.....	110
5.3	INTRODUCTION.....	110
5.4	EXCESS WATER, ANTHROPOGENIC INTERFERENCE AND ATTRIBUTION THEORY.....	112
5.5	MOUNTAINOUS NORTHWESTERN VIETNAM IN OCTOBER 2007 .....	114
5.6	INTERDISCIPLINARY APPROACH TO DATA COLLECTION AND ANALYSIS.....	117
5.7	FLOOD PERCEPTIONS AND GOVERNANCE: LOCAL PERSPECTIVES AND SCIENTIFIC FINDINGS .....	119
5.7.1	Institutions of water management and flood handling .....	119
5.7.2	Hydrological explanation for the flood of 2007.....	122
5.7.3	What triggered the event from the local people's point of view? .....	124
5.7.4	Facts and perceptions of agro-environmental impacts .....	126
5.7.5	Flood impact on household economy.....	128
5.8	LOCAL RESPONSES AND LOCAL NON-RESPONSES .....	130
5.9	DISCUSSION.....	131
5.10	CONCLUSIONS .....	133
6	GENERAL DISCUSSION.....	137

6.1	ARE UPLAND DERIVED SEDIMENTS SUFFICIENT TO SUSTAIN IRRIGATED RICE PRODUCTION IN THE LOWLAND OF NORTHERN VIETNAM? .....	137
6.2	DO THE SPATIALLY INDUCED FERTILITY PATTERNS NECESSITATE SITE SPECIFIC FERTILIZER RECOMMENDATIONS?.....	140
6.3	WHAT WOULD BE THE INFLUENCE OF SOIL CONSERVATION PRACTICES ON THE REDISTRIBUTION OF CARBON AND NITROGEN ACROSS THE LANDSCAPE .....	142
6.4	HOW WILL CLIMATE CHANGE AFFECT THE SUSTAINABILITY OF RICE PRODUCTION SYSTEMS IN THE FUTURE? .....	144
6.5	CONCLUSION AND OUTLOOK.....	146
7	SUMMARY .....	153
	ZUSAMENFASSUNG .....	157
8	REFERENCES.....	163
