

CONTENTS

Introduction	1
1 Preliminaries	7
1.1 Introduction of Problems	7
1.1.1 Scheduling Problems and Standard Notation	7
1.1.2 Traveling Salesman Problems	10
1.2 Optimization with Incomplete Information	12
1.2.1 Online Information	12
1.2.2 Stochastic Information	19
2 Online Scheduling	23
2.1 Model and Preliminaries	23
2.2 Scheduling Independent Jobs	24
2.2.1 Previous Work	25
2.2.2 An Alternative Preemptive Single-Machine Algorithm .	28
2.2.3 Preemptive Parallel-Machine Scheduling	32
2.2.4 Non-Preemptive Parallel-Machine Scheduling	33
2.3 Scheduling Jobs with Precedence Constraints	37
2.3.1 Previous Work	38
2.3.2 Scheduling on a Single Machine	40
2.3.3 Scheduling on Parallel Machines – General Job Weights	41
2.3.4 Scheduling on Parallel Machines – Equal Job Weights .	44
3 Stochastic Scheduling	49
3.1 Model and Preliminaries	49
3.2 Previous Work	50
3.3 Approximative Policies for Preemptive Stochastic Scheduling .	54
3.3.1 A Gittins Index Priority Policy	55
3.3.2 A New Lower Bound on the Optimum	60
3.3.3 A Simple Policy on Parallel Machines	63
3.3.4 An Alternative Approach	65

4	Stochastic Online Scheduling	75
4.1	Model and Preliminaries	75
4.2	Related Work	77
4.3	Non-Preemptive Stochastic Online Scheduling	78
4.3.1	A Lower Bound and a Discussion of Parameters	80
4.3.2	Scheduling on a Single Machine	83
4.3.3	Scheduling Jobs without Release Dates	85
4.3.4	Scheduling Jobs with Individual Release Dates	91
4.3.5	Randomized Job Assignment to Parallel Machines	95
4.4	Preemptive Stochastic Online Scheduling	97
5	An Online Deadline–TSP or How to Whack Moles	99
5.1	Model and Preliminaries	99
5.2	Related Work and Discussion of Results	102
5.3	The Complexity of Offline Whack-a-Mole	104
5.3.1	When Whacking Is Easy	104
5.3.2	When Whacking Is Hard	106
5.4	Whack-a-Mole on the Line	107
5.4.1	Lower Bounds – How Well We Can’t Whack	108
5.4.2	Upper Bounds – How Well We Can Whack	111
5.5	Whack-a-Mole on the Uniform Metric Space	113
5.5.1	Lower Bounds – How Well We Can’t Whack	113
5.5.2	Upper Bounds – How Well We Can Whack	115
5.6	How to Whack with Multiple Servers	119
	Bibliography	123
	Zusammenfassung (German)	132
