TABLE OF CONTENTS

Summary	i
Acknowledgments	v
Table of contents	vii
List of tables	xiii
List of figures	xv
List of acronyms and abbreviations	xvii
1. Introduction	1
1.1. Background.....	1
1.2. Problem statement	2
1.3. Research questions	3
1.4. Objectives	3
2. National context for wildlife management and conservation	4
2.1. Socio-economic environment	4
2.1.1. Administration and political conditions	4
2.1.2. Population	5
2.1.3. Economy	5
2.2. Biological diversity and conservation status	6
2.2.1. Conservation policy	8
2.2.2. Habitat loss and overexploitation (poaching)	11
2.3. Institutional framework	12
2.3.1. State agencies	12
2.3.1.1. Ministry of Forest and Wildlife	12
2.3.1.2. Other ministries and national institutions	13
2.3.2. Local communities	14
2.3.3. NGOs	15
2.3.4. International cooperation agencies	15
2.3.5. Projects (Government / external funded)	16
2.3.6. Logging companies	16

2.4. Legal framework	17
2.4.1. Land tenure laws	17
2.4.2. Forestry, wildlife and environmental laws and regulations	19
2.4.2.1. Classification of animal species	21
2.4.2.2. Hunting regulations	22
a) Traditional hunting	22
b) Sport hunting	22
2.4.2.3. Community hunting grounds	23
3. The Korup Area	25
3.1. Geography and climate	25
3.2. Biodiversity richness and importance	27
3.2.1. Vegetation	28
3.2.2. Fauna	29
3.2.2.1. Mammals	29
3.2.2.2. Birds	30
3.2.2.3. Reptiles and amphibians	31
3.2.2.4. Fishes	32
3.2.2.5. Butterflies	33
3.3. Local protected areas	33
3.3.1. Korup national park	33
3.3.2. Rumpi Hills forest reserve	34
3.3.3. Nta Ali forest reserve	34
3.3.4. Ejagham council forest reserve	34
3.3.5. Banyang-Mbo wildlife sanctuary	34
3.4. The support and peripheral zones	35
3.4.1. Development of Biomonitoring in concession areas	36
3.5. Socio-cultural context	37
3.5.1. Cultural and linguistic groups	37
3.5.2. Human history	37

4. Theoretical and analytical framework	39
4.1. Definition of the term community	39
4.2. Concepts of the commons	40
4.3. Nature of the resource	41
4.4. Decentralisation and devolution	42
4.5. Property rights	45
4.5.1. Property regimes	47
4.5.1.1. State property regimes	48
4.5.1.2. Private property regimes	49
4.5.1.3. Common property regimes	50
4.5.1.4. Open access regimes	53
4.6. Collective action	55
4.7. Transaction costs	57
4.8. Institutional arrangement	59
4.9. Conceptual and analytical frameworks	61
4.9.1. Incentive analysis	65
4.9.1.1. Characteristics of wildlife goods and services	65
4.9.1.2. Characteristics of community	65
4.9.1.3. Characteristics of rules	65
4.10. Hypotheses	66
5. Methodology	67
5.1. Research period	67
5.2. Selected villages for field survey	67
5.3. Research material	70
5.4. Data collection	70
5.4.1. Secondary data	71
5.4.2. Primary data	71
5.4.2.1. Group discussions	71
5.4.2.2. Household interviews	73
5.4.2.3. Informal discussions.....	75
5.4.2.4. Discussions with key informant persons	75

5.4.2.5. Field observations	76
5.5. Data analysis	76
5.5.1. Estimation of mammals density	76
5.5.2. Calculating maximum sustainable harvests	77
6. Socio-economic characteristics of households	79
6.1. Age and gender	81
6.2. Educational attainment	81
6.3. Activities	82
7. Hunting and trapping practices	83
7.1. Hunting weapons	85
7.2. Hunting expeditions	89
7.3. Hunting games	89
7.4. Hunting grounds	91
7.5. Hunter's bush houses	93
7.6. Others activities	94
7.6.1. Livestock keeping	94
7.6.2. Gathering and collecting of Non Timber Forest's Products (NTFPs)	96
8. Wildlife values	98
8.1. Local assessment of large and medium-sized mammals	98
8.2. Economic value	103
8.3. Nutritional value	106
8.3.1. Storage of bush meat	108
8.4. Social and cultural values	108
8.5. Tourist value	109
8.6. Meat of domesticated animals	110

9. Traditional system of wildlife management	112
9.1. Traditional institutions	112
9.1.1. The village chief	112
9.1.2. The traditional council	113
9.1.2.1. The secret society	114
9.2. Social organisations	115
9.3. Traditional status of land	116
9.4. Accessibility to wildlife	116
9.5. Cultural beliefs and traditional conservation practices	117
9.5.1. Taboos	117
9.5.2. Customs	117
9.5.3. Sacred forests or sanctuaries and mystic forces	117
9.5.4. Totems and dangerous animals	118
9.5.5. Witch craft animals	119
9.5.6. Traditional practices for hunting and fishing	120
9.6. Distribution of wildlife products after hunting	121
9.7. Ethnicity	122
9.8. Potential impacts of traditional system to the sustainability of wildlife	123
10. Wildlife density, abundance and sustainable harvests	126
10.1. Density and abundance of common mammal species	126
10.2. Maximum sustainable harvests	129
11. Discussion and recommendations	132
11.1. Inadequate wildlife and hunting regulations	132
11.2. Impact of hunting techniques on wildlife	133
11.3. Ownership and unclear property right regime	134
11.4. Breakdown of traditions and legitimacy of traditional authority	134
11.5. Legal status of hunting grounds	135
11.6. Potential sustainable offtakes	136
11.7. Further recommendations	139

11.7.1.	National / state level	139
11.7.2.	Village / traditional council level	139
11.7.3.	User group / local organisation level	140
11.7.4.	Household level	140
12.	Conclusion	141
12.1.	Study limitations	142
