Table of Contents

Acknowledgements	IV
List of Figures	V
List of Tables	VI
Abbreviations	VIII
1. Introduction	1
1.1 Origin and domestication	1
1.2 Barley genome.....	2
1.3 Barley cultivation and utilization.....	3
1.3.1 Global scenario	3
1.3.2 Barley in the highlands of Nepal, Himalayas	4
1.4 Hulled vs hulless barley	5
1.5 Trends in barley breeding	6
1.6 Barley yellow mosaic disease	8
1.6.1 Disease status and resistance breeding.....	8
1.6.2 Genetics of BaMMV/BaYMV resistance	11
1.7 Nepalese hulless barley genetic resource	11
1.8 Molecular assessment of barley diversity and differentiation	12
2. Materials and Methods	16
2.1 Genetic diversity and population differentiation analysis of Nepalese hulless barley landraces	16
2.1.1 The hulless barley samples and geographic origins.....	16
2.1.2 Molecular genotyping	19
2.1.2.1 DNA extraction	19
2.1.2.2 SSR assays.....	20
2.1.3 Statistical analysis.....	24
2.1.3.1 Estimation of genetic diversity and genetic relatedness	24
2.1.3.2 Population structure analysis.....	25
2.1.3.3 Estimation of population diversity and differentiation.....	26
2.2 Genetic relationship of Nepalese hulless barley with East Asian and Western barley cultivars.....	27

2.2.1 Plant material	27
2.2.2 Alignment of SSR alleles between the experiments	28
2.2.3 Statistical analysis	28
2.3 Disease reaction of Nepalese hulless barley landraces	29
2.3.1 Test for Barley mild mosaic virus (BaMMV) resistance	29
2.3.2 Test for powdery mildew (<i>Blumeria graminis</i> f. sp. <i>hordei</i>)	29
2.3.3 Test for leaf rust (<i>Puccinia hordei</i>)	31
2.4 Genetic studies on BaMMV resistance in Nepalese hulless barley	31
2.4.1 Allelism test for BaMMV resistance	31
2.4.2 Identification of genes conferring BaMMV resistance	32
3. Results	34
3.1 Genetic diversity and population differentiation of Nepalese hulless barley	34
3.1.1 Allelic diversity and PIC of the SSR markers	34
3.1.2 Genetic relatedness of Nepalese hulless barley landraces	35
3.1.3 Model based groups	37
3.1.4 Comparing UPGMA clusters and the model based groups	40
3.1.5 Genetic diversity and population differentiation	41
3.2 Genetic relationship of Nepalese hulless barley with East Asian and Western barley cultivars	44
3.2.1 Allelic diversity, unique alleles and genetic diversity estimates	44
3.2.2 Genetic relatedness and UPGMA cluster analysis	48
3.3 Disease reaction of Nepalese hulless barley landraces	53
3.4 Genetic studies on BaMMV resistance	56
3.4.1 Diversity of BaMMV resistance genes	56
3.4.2 Identification of genes conferring BaMMV resistance	57
4. Discussion	60
4.1 Genetic diversity and population differentiation of Nepalese hulless barley landraces	60
4.2 Genetic relationship of Nepalese hulless barley with East Asian and Western barley cultivars	65
4.3 Disease reaction of Nepalese hulless barley landraces	69
5. Summary	71
6. Zusammenfassung	73

7. References	75
Appendices	88
