Contents

1	Introduction	15
1.1	What Is Anesthesia	16
1.2	Motivation and Overview	17
2	General Concepts	23
2.1	Introduction	24
2.2	Modeling Drug Distribution and Action	24
2.2.1	Pharmacokinetic Model	24
2.2.2	Pharmacodynamic Model	28
3	Optimal Drug Combinations	33
3.1	Introduction	34
3.2	The Black-Box Optimization Method	35
3.2.1	Background	35
3.2.2	The Novel Modified Direct Search Procedure	37
3.2.3	Application of the Novel Modified Direct Search Method to the Combination of Epidural Fentanyl, Bupiva- caine, and Clonidine	45
3.3	The Well-being Model	55
3.3.1	Model Development	55
3.3.2	Model Analysis	67
3.3.3	Determination of the Optimal Drug Administration	75
3.3.4	Application of the Well-being Model to the Combi- nation of Intravenous Morphine with Ketamine	78
4	Real-time Individual Parameter Estimation	95

4.1	Introduction	96
4.1.1	Background	96
4.1.2	The Anesthesia Advisory Display	96
4.1.3	Problem Formulation	100
4.2	On-line Parameter Estimation	100
4.2.1	The Kalman Filter Algorithm	100
4.2.2	The Extended Kalman Filter Algorithm	102
4.2.3	The Kalman Filter Algorithm with Uncertain Parameters	103
4.3	Application to Propofol-BIS	104
4.3.1	Data	104
4.3.2	Pharmacokinetic Model	105
4.3.3	Pharmacodynamic Model	107
4.3.4	Problem Formulation: State Space Representation	109
4.3.5	Results	112
4.4	Comparison of the On-line Estimation with Off-line Method	121
5	Optimal Pharmacokinetic Experimental Design	127
5.1	Introduction	128
5.1.1	Background	128
5.1.2	The Work by Avram and Krejcie	128
5.1.3	Problem Formulation	130
5.2	Optimal Experiment Design	131
5.2.1	Sensitivity Function	132
5.2.2	The Fisher Information Matrix	134
5.3	Application to Thiopenthal	136
5.3.1	Pharmacokinetic Model	137
5.3.2	Evaluation of Sensitivity Function	138
5.3.3	Evaluation of the Fisher Information Matrix	139
5.3.4	Identification of the Optimal Administration Mode	140
6	Conclusions	157
6.1	Main Achievements and Outlook	158
6.1.1	Optimal Drug Combinations	158
6.1.2	Real-time Individual Parameter Estimation	160
6.1.3	Optimal Pharmacokinetic Experimental Design	161
