Tsegaye Yilma Dessalegn (Autor)

Modeling Farm Irragation Decisions under Rainfall Risk in the White-Volta Basin of Ghana

A tool for policy analysis at the farm-household level

KURZFASSUNG ..... **III**

ABSTRACT ..... **IV**

DEDICATION ..... **V**

ACKNOWLEDGEMENTS ..... **XI**

LIST OF ACRONYMS ..... **XII**

1: INTRODUCTION **14**

1.1 A CONCEPTUAL FRAMEWORK OF IRRIGATION-FOOD SECURITY LINKAGE 15
1.2 RESEARCH QUESTIONS, HYPOTHESIS AND OBJECTIVES OF THE STUDY 17
1.2.1 Objectives of the study *20*
1.2.2 Research Questions *20*
1.2.3 Central Hypothesis *20*
1.3 OUTLINE OF THE DISSERTATION 20

2: BACKGROUND OF THE STUDY AREA **22**

2.1. SOCIO-ECONOMIC FEATURES 22
2.1.1 Demography, Household structure and Labor Use *22*
2.1.2 Land Holding and Tenure Arrangements *24*
2.1.2.1 Land Size 24
2.1.2.2 Land Tenure 25
2.1.3 Economic Activities *26*
2.1.3.1. Crop Production 26
2.1.3 1.1 Observed Land Use Trends 28
2.1.3.1.2 Irrigation Technology 30
2.1.3.1.3 Gender and Irrigation 32
2.1.3.1.4 Agricultural Marketing 33
2.1.3.1.5 Agricultural Input Supply 34
2.1.3.2 Livestock Production 36
2.1.3.3 Crop Livestock Interactions 36
2.1.3.4 Poverty 37
2.2 BIO-PHYSICAL FEATURES 37
2.2.1. Rainfall *38*
2.2.2. Soil *39*
2.2.3. Vegetation *40*

3: FARM HOUSEHOLD CHARACTERIZATION AND CLASSIFICATION FOR POLICY ANALYSIS **42**

3.1 CHARACTERISTICS OF SAMPLE HOUSEHOLDS 42
3.1.1 Sampling Procedure and Source of Data *42*
3.1.2 Demographic Characteristics *44*
3.1.2.1 Family Size 44
3.1.2.2 Education Level 45
3.1.3 Asset Ownership *46*
3.1.3.1 Farm Equipments 46
3.1.3.2 Livestock Ownership 46
3.1.4 Crop Production Activities *46*
3.1.4.1 Major Crops 46
3.1.4.2 Plot Location, Fragmentation and Size 47
3.1.4.3 Input Use 48
3.1.5 off-Farm Activities *49*
3.1.6 Agricultural Decision under Rainfall Risk *50*
3.1.6.1 Risk Perception 52
3.1.6.2 Eliciting Subjective Probabilities 54

3.2 FARM HOUSEHOLD CLASSIFICATION FOR POLICY ANALYSIS 55
3.2.1 Selecting Clustering Variables using Factor Analysis 56
3.2.2 Identifying Representative Farm Households 59
3.2.3 Characteristics of the Identified Clusters 60

4: HOUSEHOLD IRRIGATION DECISION 63

4.1 INTRODUCTION 63
4.2 CONCEPTUAL FRAMEWORK AND THEORETICAL SPECIFICATION OF IRRIGATION DECISIONS 64
4.2.1 Conceptual Framework 64
4.4.2 Theoretical Model 65
4.3 EMPIRICAL SPECIFICATION 69
4.4 CHARACTERISTICS OF IRRIGATING HOUSEHOLDS 71
4.5 DETERMINANTS OF IRRIGATION DECISION 73
4.5.1 Household Head Characteristics and Irrigation Decision 74
4.5.2 Household Resource Endowments and Irrigation Decision 75
4.5.3 Infrastructural Access and Irrigation Decision 76
4.6 THE IMPACT OF IRRIGATION ON FERTILIZER USE 77
4.6.1 Introduction 77
4.6.2 Empirical Model Specification 78
4.6.3 Determinants of Fertilizer Use 81
4.6.3.1 Irrigation Access and Fertilizer use 82
4.6.3.2 Household Resources & Head Characteristics and Fertilizer use 84
4.6.3.3 Household Liquidity and Fertilizer use Decision 85
4.6.3.4 Physical and social capital and Fertilizer use Decision 85

5: FARM HOUSEHOLD MODELS FOR THE WHITE VOLTA BASIN OF GHANA 87

5.1 THE CONCEPT OF AGRICULTURAL HOUSEHOLD MODELS 87
5.2 MODELING AGRICULTURAL DECISION UNDER RISK 89
5.2.1 Expected Utility (EU) Approach 90
5.2.2 Measures of Downside Risk 93
5.2.2.1 Lower Partial Moment 94
5.2.2.2 Value at Risk (VaR) 94
5.2.3 Safety-First (SF) measures 95
5.3. EMPIRICAL SPECIFICATION OF A TELSER TYPE SAFETY FIRST MODEL 96
5.3.1. Objective function Specification 96
5.3.1.1 Specification of Traditional Crops Yield 97
5.3.1.2 Irrigated Tomato Production 98
5.3.1.3 Estimation of Rice Yield 100
5.3.1.3.1. Yield Response Function 101
5.3.1.3.2. Theoretical Foundations of Production Function Estimation 102
5.3.1.3.2.1. Monotonicity 103
5.3.1.3.2.2 Concavity 104
5.3.1.3.2.3 Flexibility 104
5.3.1.3.2.4 Comparing the Cobb-Douglas and Normalized Quadratic 104
5.3.1.3.3 Estimation 105
5.3.1.3.4 Incorporating the Yield Function in LP Matrix 107
5.3.2 Constraint sets: 108
5.3.2.1 Land Constraint: 108
5.3.2.2 Labor Constraint 110
5.3.2.3 Fertilizer & Credit Constraints 111
5.3.2.4 Consumption Constraint 112
5.3.2.4.1 Estimating Engel Curves 114
5.3.2.4.2 Estimation 116
5.3.2.4.3 Incorporating Engel Functions into an LP Matrix 118
5.3.2.5 Risk Constraints and Application of the LPM 119

6: POLICY AND TECHNOLOGY SCENARIO ANALYSIS 123

6.1 INTRODUCTION 123

6.2 SIMULATION OF IMPACT OF RISK ON FARMERS' DECISIONS 123
6.3 BASE RUN AND SENSITIVITY TESTS 126
6.4 MODEL VALIDATION AND ROBUSTNESS TEST 126
6.5 SIMULATION EXPERIMENTS 128
6.5.1 Incentives for Irrigation Decision *129*
6.5.2 Credit Access and Labor Market Participation *132*
6.5.3 Price Experiment *136*
6.5.4 Effect of Research and Development *137*

7: SUMMARY AND CONCLUSIONS 139

7.1 SUMMARY 139
7.2 CONCLUSIONS AND IMPLICATIONS 145
7.3 INSIGHTS FOR FUTURE POLICY AND RESEARCH DIRECTIONS 147
