<b>List of tables</b> .....	<b>v</b>
<b>List of figures</b> .....	<b>ix</b>
<b>List of abbreviations</b> .....	<b>xi</b>
<b>1. Introduction</b> .....	<b>1</b>
<b>1.1 Background and justification</b> .....	<b>1</b>
<b>1.2 The problem statements</b> .....	<b>3</b>
<b>1.3 Research hypothesis</b> .....	<b>4</b>
<b>1.4 Objective</b> .....	<b>4</b>
<b>2. Literature review</b> .....	<b>5</b>
<b>2.1 The implication of dietary fibre in poultry feed</b> .....	<b>5</b>
2.1.1. Structure of plant fibre .....	5
2.1.2. Biological effects of dietary fibre in small intestine .....	6
2.1.2.1. The effect of SNSP on gastrointestinal physiology of chicken .....	7
2.1.2.1.1. The ability of SNSP to induce digesta viscosity and transit time .....	7
2.1.2.1.2. Fibre in gastric emptying .....	7
2.1.2.1.3. Reduction of intestinal mixing .....	8
2.1.2.1.4. The endogenous losses of nutrients .....	8
2.1.2.2. The effect of INSP on gastrointestinal physiology of chicken .....	9
2.1.3. Fibre induced morphological changes of the digestive tract .....	9
2.1.4. Effect of fibre on the digestibility of nutrients .....	10
2.1.4.1. Effect of fibre on the absorption of crude protein .....	10
2.1.4.2. Effect of fibre on the absorption of lipids .....	10
2.1.4.3. Effect of dietary fibre on digestion of nitrogen-free extract .....	11
2.1.4.4. Effect of fibre on the mineral digestion .....	12
2.1.5. Microbial degradation of fibre in poultry intestine .....	13
<b>2.2. Rice bran as source of dietary fibre in poultry diet</b> .....	<b>14</b>
2.2.1. Nutrient composition of rice bran .....	14
2.2.1.1. Effects of post-harvest processing and milling of rice on nutrient content in rice bran .....	14
2.2.1.2. Varietal variation of nutrient content in rice bran .....	17
2.2.2. Disadvantageous characteristic properties of rice bran .....	18
2.2.2.1. Antinutritional factors in rice bran .....	18

2.2.2.2	Rancidity of rice bran .....	19
2.2.3.	Stabilisation process .....	19
2.2.4	Effect of dietary rice bran inclusion on performance of broiler chicken .....	20
<b>2.3.</b>	<b><i>Yeast treatment as a mean to improve feeding quality of rice bran</i></b> .....	<b>22</b>
2.3.1.	Microbiology of fermented feeds .....	22
2.3.2.	Fate of yeast through the digestive tract .....	22
2.3.3.	Biochemistry of yeast in feed fermentation .....	24
2.3.3.1.	Reduction of antinutritional factors in fermented feed .....	24
2.3.3.2.	The changes of major nutrients in fermented feed .....	25
2.3.3.3.	End-products of NFE fermentation .....	26
2.3.4.	Animal trials practised with probiotics .....	27
2.3.5.	The disadvantage of fermented feed .....	29
<b>3.</b>	<b>Experimental procedures</b> .....	<b>30</b>
<b>3.1</b>	<b><i>Experiment 1: Determining the optimum rice bran processing method to enhance the viability of inoculated yeast</i></b> .....	<b>30</b>
3.1.1	Objective .....	30
3.1.2.	Material and method .....	30
3.1.2.1.	Experimental design .....	30
3.1.2.2.	Data collection and data analysis .....	31
3.1.3.	Results .....	32
3.1.4.	Discussion .....	34
3.1.5.	Conclusion .....	36
<b>3.2.</b>	<b><i>Experiment 2: Apparent faecal digestibility of diets containing RB or FRB in broiler chickens</i></b> .....	<b>37</b>
3.2.1.	Objective .....	37
3.2.2.	Material and Methods .....	37
3.2.2.1.	Experimental design .....	37
3.2.2.2.	Data collection and data analysis .....	39
3.2.3.	Results .....	39
3.2.3.1.	The effects of diets containing increasing levels of RB on faecal digestibility in chickens .....	39
3.2.3.2.	Effect of dietary FRB containing different levels of inoculated yeast on faecal digestibility in chicken .....	40
3.2.3.3.	Comparison the effect of dietary RB and FRB on faecal digestibility in chicken .....	41
3.2.4.	Discussion .....	42
3.2.4.1.	Effect of diets containing increasing levels of RB on faecal digestibility in chicken .....	42

3.2.4.2.	The effects of dietary FRB on faecal digestibility in chicken .....	44
3.2.5.	Conclusion .....	45
<b>3.3.</b>	<b><i>Experiment 3: Growth performance of broiler chickens fed diets containing varying levels of rice bran</i></b> .....	<b>47</b>
3.3.1.	Objectives .....	47
3.3.2.	Material and methods .....	47
3.3.2.1.	Animal and housing .....	47
3.3.2.2.	Experimental designs .....	47
3.3.2.3.	Data collection and data analysis .....	48
3.3.3.	Results .....	49
3.3.4.	Discussion .....	56
3.3.4.1.	The composition of nutrients in the experimental diets .....	56
3.3.4.2.	The effect of diets containing increasing levels of RB on FI of chickens .....	56
3.3.4.3.	The effect of diets containing varying levels of RB on BW of chicken .....	57
3.3.4.4.	The effect of diets containing varying levels of RB on FCR of chicken .....	57
3.3.4.5.	The effect of diets containing varying levels of RB on viscera organ of chicken .....	58
3.3.5.	Conclusion .....	58
<b>3.4.</b>	<b><i>Experiment 4: Growth performance of broiler chickens fed FRB inoculated with graded levels of yeast</i></b> .....	<b>60</b>
3.4.1.	Objectives .....	60
3.4.2.	Material and methods .....	60
3.4.2.1.	Animal and housing .....	60
3.4.2.2.	Experimental designs .....	60
3.4.2.3.	Data collection and data analysis .....	61
3.4.3.	Results .....	62
3.4.4.	Discussion .....	68
3.4.4.1.	The composition of nutrients and yeast content in experimental diets .....	68
3.4.4.2.	The effect of FRB inoculated with graded levels of yeast on FI of chickens ....	69
3.4.4.3.	The effect of FRB inoculated with graded levels of yeast on BW of chicken ...	70
3.4.4.4.	The effect of FRB inoculated with graded levels of yeast on FCR of chicken...	71
3.4.4.5.	The effect of FRB inoculated with graded levels of yeast on viscera organs of chicken .....	71
3.4.5.	Conclusion .....	72
<b>3.5.</b>	<b><i>Experiment 5: Growth performance of broiler chickens fed rice bran fermented with yeast</i></b> .....	<b>73</b>
3.5.1.	Objectives .....	73

3.5.2.	Material and methods .....	73
3.5.2.1.	Animal and housing .....	73
3.5.2.2.	Experimental designs .....	73
3.5.2.2.1.	Trial 1: The effect of substituting dietary FRB for RB on growth performance of broiler chickens.....	73
3.5.2.2.2.	Trial 2: The effect of feeding different levels of FRB in diets on growth performance of chicken .....	74
3.5.2.3.	Data collection and data analysis .....	75
3.5.3.	Results .....	76
3.5.3.1.	The effects of substituting dietary FRB for RB on growth performance of broiler chickens.....	76
3.5.3.2.	The effect of feeding different levels of FRB in diets on growth performance of chicken .....	83
3.5.4.	Discussion.....	89
3.5.4.1.	Composition of nutrients and yeast content in experimental diets .....	89
3.5.4.2.	The effect of FRB on FI of chickens .....	90
3.5.4.3.	The effect of FRB on BW of chickens .....	92
3.5.4.4.	The effect of FRB on FCR of chickens .....	93
3.5.4.5.	The effect of FRB on carcass yield of chickens .....	94
3.5.5.	Conclusion .....	95
<b>4.</b>	<b>Integrating discussion and implication in further research .....</b>	<b>96</b>
<b>4.1.</b>	<b><i>The potential use of RB in broiler chicken in Cambodia .....</i></b>	<b>96</b>
<b>4.2.</b>	<b><i>Using yeast to upgrade the feeding quality of rice bran.....</i></b>	<b>97</b>
<b>4.3.</b>	<b><i>Efficiency of RB and FRB on biological performance of broiler chicken .....</i></b>	<b>99</b>
4.3.1.	The effect of RB and FRB on feed intake of chicken .....	99
4.3.2.	The effect of RB and FRB on BW of chicken .....	100
4.3.3.	The effect of RB and FRB on viscera organs of chicken .....	100
4.3.4.	The difference in ADG of male and female chicken to the experimental diets ..	102
<b>4.4.</b>	<b><i>Research implication and recommendation for the further work .....</i></b>	<b>103</b>
<b>5.</b>	<b>Conclusions .....</b>	<b>105</b>
<b>Summary</b>	<b>.....</b>	<b>107</b>
<b>List of reference</b>	<b>.....</b>	<b>111</b>
<b>Appendix</b>	<b>.....</b>	<b>123</b>
<b>Curriculum vitae</b>	<b>.....</b>	<b>125</b>
