TABLE OF CONTENTS

1	INTRODUCTION	1
1.1	Problem statement	5
1.2	Research objectives	7
1.2.1	The Glowa-Volta Project	7
1.2.2	Specific objectives	8
1.2.3	Structure of the thesis.....	8
2	STUDY AREA AND GENERAL APPROACH	10
2.1	General description of the Volta Basin.....	10
2.1.1	Geographic settings.....	12
2.1.2	Climate	12
2.1.3	Hydrology, drainage and water resources.....	13
2.1.4	Geology and soils.....	15
2.1.5	Vegetation characteristics and land use	16
2.2	General approach.....	17
2.2.1	Land classification	19
2.2.2	Actual evapotranspiration (ET _a) assessment	19
3	BIOPHYSICAL AND HYDROLOGICAL CHARACTERIZATION OF THE SAVANNAH LANDSCAPE IN NAVRONGO, GHANA.....	23
3.1	Introduction	23
3.2	Materials and methods.....	24
3.2.1	Land-use and land-cover (LULC) classification.....	24
3.2.2	Vegetation characterization: field survey and remote sensing approach.....	28
3.2.3	Hydrological units delineation.....	33
3.2.4	Tree density mapping.....	36
3.3	Results and discussions	38
3.3.1	Land-use and land-cover maps	38
3.3.2	Hydrological delineation.....	56
3.3.3	Tree density mapping in the Navrongo area	60
3.4	Conclusions	66
4	ACTUAL EVAPOTRANSPIRATION ASSESSMENT IN THE SAVANNAH VEGETATION.....	68
4.1	Introduction	68
4.2	Materials and methods.....	70
4.2.1	Actual evapotranspiration computation using Surface Energy Balance Algorithm for Land	70
4.2.2	Meteorological field data	74
4.2.3	Sap flow measurements	75
4.2.4	Temporal integration of SEBAL ET _a with reference ET _o	80
4.2.5	Relationship between ET _c and biophysical and hydrological characteristics of the savannah.....	83

4.3	Results and discussion	83
4.3.1	SEBAL ET_a spatial distribution during the dry season.....	83
4.3.2	Temporal integration of SEBAL ET_a with reference ET_o	87
4.3.3	Relationships between ET_c and tree density	96
4.3.4	Relationships between ET_c and hydrological units.....	99
4.3.5	Sap flow and water transpiration in the savannah of the Navrongo area	101
4.4	Conclusion	115
5	SUMMARY AND CONCLUSIONS	117
5.1	Introduction	117
5.2	Biophysical and hydrological characteristics of the Navrongo savannah area.....	117
5.2.1	Land-use and land-cover mapping.....	117
5.2.2	Spatial distribution of fire traces in savannah vegetation	118
5.2.3	Spatio-temporal patterns of hydrological units in the savannah landscape.....	119
5.2.4	Tree density mapping using high spatial resolution remote sensing data	119
5.3	ET_a assessments.....	120
5.3.1	Relationships between ET_a distribution and biophysical and hydrological characteristics	121
5.3.2	Savannah vegetation transpiration in the dry season	125
5.4	Conclusions and recommendations	126
6	REFERENCES	129
7	APPENDICES	141
	ACKNOWLEDGEMENTS
