

## TABLE OF CONTENTS

1	INTRODUCTION.....	1
1.1	Problem statement .....	1
1.2	Research objectives .....	5
1.3	Thesis outline .....	5
2	THEORY OF SPATIAL SOIL VARIABILITY.....	7
2.1	Variability components .....	7
2.2	Scale dependency .....	8
2.3	Modeling spatial variability .....	9
2.3.1	Deterministic approaches .....	9
2.3.2	Stochastic approaches.....	9
2.3.3	Stratification approaches .....	10
3	SPATIAL STRATIFICATION OF UGANDA.....	11
3.1	Introduction .....	11
3.2	Material and methods .....	13
3.2.1	Conceptual framework .....	13
3.2.2	Development pathway model .....	15
3.2.3	Stratification factors and data .....	16
3.3	Results and discussion.....	20
3.3.1	Stratification of Uganda into development domains .....	20
3.3.2	Spatial variation of indicators characterizing development domains.....	21
3.4	Summary and conclusions.....	26
4	NATIONAL-SCALE SPATIAL VARIABILITY OF SOILS.....	27
4.1	Introduction .....	27
4.2	Material and methods .....	27
4.2.1	Community selection.....	27
4.2.2	Data collection.....	30
4.2.3	Sample and data processing.....	34
4.2.4	Statistical and spatial analyses.....	34
4.3	Results and discussion.....	39
4.3.1	Spatial distribution of soils on national scale .....	39
4.3.2	Spatial structure and patterns of soils on national scale .....	45
4.3.3	Causes of spatial soil variability on national scale .....	53
4.4	Summary and conclusions.....	58

5	HILLSLOPE-SCALE SPATIAL VARIABILITY OF SOILS .....	61
5.1	Introduction .....	61
5.2	Material and methods .....	62
5.2.1	Selection and description of hillslopes .....	62
5.2.2	Data collection.....	64
5.2.3	Data processing.....	66
5.2.4	Statistical and spatial analyses.....	71
5.3	Results and discussion.....	73
5.3.1	Spatial distribution of soils on hillslope scale .....	73
5.3.2	Spatial structure and patterns of soils on hillslope scale .....	91
5.3.3	Causes of spatial soil variability on hillslope scale .....	99
5.4	Summary and conclusions.....	110
6	HILLSLOPE-SCALE SOIL REDISTRIBUTION PROCESSES AND RATES .....	112
6.1	Introduction .....	112
6.2	Material and methods .....	115
6.2.1	Caesium-137 soil redistribution .....	115
6.2.2	Soil redistribution estimation models.....	116
6.2.3	Data collection.....	118
6.2.4	Data processing.....	123
6.2.5	Validation of estimated soil redistribution rates.....	124
6.3	Results and discussion.....	124
6.3.1	Potential to apply the <sup>137</sup> Cs approach in the humid tropics of Africa ..	124
6.3.2	Estimation of soil redistribution rates, spatial patterns and processes .	128
6.4	Summary and conclusions.....	138
7	GENERAL DISCUSSION AND CONCLUSIONS .....	142
7.1	General discussion.....	142
7.1.1	Spatial stratification of Uganda .....	142
7.1.2	National-scale spatial variability of soils .....	143
7.1.3	Hillslope-scale spatial variability of soils.....	147
7.1.4	Hillslope-scale soil redistribution processes and rates .....	151
7.2	Conclusions .....	153
8	REFERENCES.....	155
9	APPENDICES.....	165

ACKNOWLEDGEMENTS
