Contents

I	Introduction	1
II	Material & methods	3
II.1	Investigation area	3
II.2	Investigations – design and site description.....	7
II.2.1	Investigation I (relief position).....	7
II.2.2	Investigation II (deer/stand density).....	9
II.2.3	Investigation III (wild boar/deer)	12
II.2.4	Investigation IV (stand composition/slope gradient)	14
II.2.5	Microbial properties as indicators for soil quality.....	15
II.3	Methods	20
II.3.1	Sampling procedure.....	20
II.3.2	Vegetation characteristics.....	20
II.3.3	Soil physical properties	20
II.3.4	Soil chemical properties	21
II.3.5	Soil microbial properties	21
II.3.6	Litter layer and soil fauna.....	22
II.3.7	Nutrients in foliage.....	23
II.3.8	Statistical analyses and data presentation.....	23
III	Results	25
III.1	Investigation I (relief position).....	25
III.1.1	Influence of slope aspect on soil chemistry.....	25
III.1.2	Influence of slope position on soil chemistry and soil texture	26
III.2	Investigation II (deer/stand density).....	28
III.2.1	Soil physical and chemical properties	28
III.2.2	Soil microbial properties	32
III.2.3	Litter layer and soil fauna.....	34
III.2.4	Foliar nutrients.....	38

III.3	Investigation III (wild boar/deer)	39
III.3.1	Soil physical and chemical properties	39
III.2.2	Soil microbial properties	42
III.3.3	Litter layer and soil fauna	44
III.4	Investigation IV (stand composition/slope gradient)	49
III.4.1	Soil physical and chemical properties	49
III.4.2	Soil microbial properties	53
III.4.3	Lumbricid abundance	54
III.5	Microbial properties as indicators for soil quality	55
III.5.1	Field studies	55
III.5.2	Microcosm experiments	58
IV	Discussion	62
IV.1	Abiotic factors	62
IV.1.1	Slope aspect	62
IV.1.2	Slope position	65
IV.1.3	Slope gradient	66
IV.2	Biotic factors	67
IV.2.1	Deer	67
IV.2.2	Wild boar	72
IV.2.3	Stand density	75
IV.2.4	Stand composition	77
IV.3	Microbial properties as indicators for soil quality	81
IV.3.1	Field studies	81
IV.3.2	Microcosm experiments	86
IV.4	Conclusions	90
IV.5	Implications for forest management	94
V	Summary	96
VI	References	100
VII	Appendix	121
