

Niknik Nurhayati (Autor)

**Study on the Potential Distribution, Accumulation
and Metabolite Products of Chlorocholine Chloride
(CCC) in Tissues of Laying Hens receiving Diets with
varying Levels of ^{15}N -CCC**

Nurhayati

STUDY ON THE POTENTIAL DISTRIBUTION,
ACCUMULATION AND METABOLITE PRODUCTS
OF CHLOROCHOLINE CHLORIDE (CCC) IN
TISSUES OF LAYING HENS RECEIVING DIETS
WITH VARYING LEVELS OF ^{15}N -CCC

LIST OF CONTENTS

	Page
LIST OF TABLES	v
LIST OF FIGURES	vi
LIST OF APPENDICES	viii
LIST OF ABBREVIATIONS	ix
1. INTRODUCTION	1
2. LITERATURE REVIEW	4
2.1. Chlorocholine chloride (CCC) properties	4
2.2. Metabolism and effects of CCC on plants	7
2.2.1. Metabolism and conversion of CCC in plants	7
2.2.2. CCC function in the biosynthesis of phytohormones	11
2.2.3. Effect and accumulation of CCC in plants	14
2.2.3.1. Effect of CCC on organs	14
2.2.3.2. Effect of CCC on plant yield	17
2.2.3.3. Other CCC effects on plants	18
2.2.3.4. Residual accumulation of CCC in plants and plant products	18
2.3. Metabolism and effects of CCC in animals	19
2.3.1. Metabolism and conversion of CCC in animals	19
2.3.2. Effects and accumulation of CCC in animals	27
2.3.2.1. Effects of CCC on animal performance	27
2.3.2.2. Effects of CCC on animal reproduction and fertility	27
2.3.2.3. Effects of CCC on animal health	28
2.3.2.4. Effects of CCC on animal organs	30
2.3.2.5. Other effects of CCC on animals	31
2.3.2.6. Accumulation of CCC residues in animals and animal products	31
2.4. Degradation and fragmentation model of CCC in chromatography detection	32
2.5. Using stable isotope labelling in CCC studies	36
2.6. Determination of CCC residues	37
2.6.1. Methods utilised to determine residual CCC	37

2.6.1.1.	Thin layer chromatography	37
2.6.1.2.	High performance liquid chromatography	39
2.6.1.3.	Gas chromatography	40
2.6.1.4.	Liquid chromatography	41
2.6.1.5.	Other chromatographic methods	44
2.6.2.	Extraction, isolation and determination of CCC by several methods	45
3.	STUDY I. DISTRIBUTION AND ACCUMULATION OF CHLOROCHOLINE CHLORIDE (CCC) RESIDUES IN TISSUES OF LAYING HENS FED DIETS WITH VARYING LEVELS OF ^{15}N-CCC	46
3.1.	Objectives	46
3.2.	Materials and methods	46
3.2.1.	Animals and housing	46
3.2.2.	Feed and feeding procedures	46
3.2.3.	Sample collection and preparation	48
3.2.4.	^{15}N abundance determination	48
3.2.5.	Statistical analysis	52
3.3.	Results	52
3.3.1.	The $\delta^{15}\text{N}$ and $\text{At}\%^{15}\text{N}$ values in diets containing varying levels of ^{15}N -CCC	52
3.3.2.	Effect of dietary ^{15}N -CCC for eleven days on $\delta^{15}\text{N}$ excess ($\delta^{15}\text{N}$ -ex) and atom percentage excess ^{15}N (APE)	53
3.3.2.1.	$\delta^{15}\text{N}$ excess ($\delta^{15}\text{N}$ -ex)	53
3.3.2.2.	Atom percentage excess ^{15}N (APE)	54
3.3.3.	$\delta^{15}\text{N}$ excess ($\delta^{15}\text{N}$ -ex) and Atom percentage excess ^{15}N (APE) seven days after ^{15}N -CCC treatment withdrawal	55
3.3.3.1.	^{15}N excess ($\delta^{15}\text{N}$ -ex)	55
3.3.3.2.	Atom percentage excess ^{15}N (APE)	56
3.3.4.	Estimation of CCC and/or CCC metabolite product residues in laying hen tissues	57
3.4.	Discussion	58

3.4.1.	$\delta^{15}\text{N}$ and atom percentage $\%^{15}\text{N}$ ($\text{At}\%^{15}\text{N}$) in treatment diets	60
3.4.2.	Effect of dietary ^{15}N -CCC for eleven days on $\delta^{15}\text{N}$ excess ($\delta^{15}\text{N}$ -ex) and $\text{At}\%$ excess ^{15}N (APE)	60
3.4.3.	$\delta^{15}\text{N}$ excess ($\delta^{15}\text{N}$ -ex) and $\text{At}\%$ excess ^{15}N (APE) seven days after ^{15}N -CCC treatment withdrawal	62
3.4.4.	Estimation of CCC and/or CCC metabolite product residues in laying hen tissues	64
3.5.	Conclusion	64
4.	STUDY II. METABOLIC PRODUCTS OF CHLOROCHOLINE CHLORIDE IN EGGS AND MEAT OF LAYING HENS FED DIETS WITH VARYING LEVELS OF ^{15}N-CCC	65
4.1.	Objectives	65
4.2.	Materials	65
4.3.	Methods	66
4.3.1.	Thin layer chromatography (TLC)	66
4.3.1.1.	Extraction	66
4.3.1.2.	Isolation (separation)	67
4.3.1.3.	Determination	68
4.3.2.	Gas chromatography mass spectrometry (GC-MS)	70
4.3.2.1.	Standard preparation	70
4.3.2.2.	Heterogeneous conditions	70
4.3.2.3.	Homogeneous conditions	71
4.3.2.4.	GC-MS specification	71
4.3.2.5.	GC-MS analysis	71
4.3.3.	High performance liquid chromatography (HPLC)	71
4.3.3.1.	Sample preparation	71
4.3.3.2.	HPLC analysis	73
4.3.4.	Liquid chromatography electrospray ionisation ion trap mass spectrometry	73
4.3.4.1.	Chemical and preparation of standard solutions	73
4.3.4.2.	Sample preparation	73

4.3.4.3.	Mass spectrometry specifications	74
4.4.	Results	76
4.4.1.	Thin layer chromatography (TLC)	76
4.4.2.	Gas chromatography mass spectrometer (GC-MS)	78
4.4.3.	High performance liquid chromatography (HPLC)	79
4.4.4.	Liquid chromatography electrospray ionisation ion trap mass spectrometer (LC-ESI-MS/MS)	80
4.5.	Discussion	86
4.5.1.	Determination of chlorocholine chloride and/or its metabolite products using thin layer chromatography	86
4.5.2.	Determination of chlorocholine chloride compound using gas chromatography	87
4.5.3.	Determination of chlorocholine chloride compound using high performance liquid chromatography	88
4.5.4.	Determination of chlorocholine chloride compound using liquid chromatography electrospray ionisation ion trap mass spectrometry	89
4.6.	Conclusion	91
5.	GENERAL DISCUSSION	92
6.	GENERAL CONCLUSIONS	97
7.	SUMMARY	98
8.	REFERENCES	100
9.	APPENDICES	124
