

## Table of contents

Acknowledgement.....	I
Table of contents .....	III
List of tables .....	VI
List of figures .....	IX
List of abbreviation.....	X
1 Introduction .....	1
1.1 Problem statement.....	1
1.2 Objectives of the study.....	2
1.3 Structure of the thesis.....	3
2 Literature review.....	4
2.1 Sheep production in the Near East.....	4
2.2 Sheep production in Bedouin communities .....	6
2.3 Local sheep breeds in Israel .....	7
2.3.1 Performance of Awassi lines .....	10
2.3.2 Performance of FecB carriers .....	11
2.3.3 Functions of Bedouin sheep flocks.....	12
2.4 Livestock farming system (LFS) analysis.....	13
2.4.1 Classification of sheep production systems.....	14
2.4.2 Classification of Bedouin sheep production in the Negev .....	16
2.5 Efficiency and sustainability of Bedouin sheep production.....	17
3 Materials and Methods.....	19
3.1 Materials.....	19
3.1.1 Study area .....	19
3.1.1.1 Location and settlements .....	19
3.1.1.2 Climatic conditions .....	20
3.1.2 Bedouin population, occupation and tribe characteristics.....	21
3.1.3 Animals .....	22
3.2 Methods.....	23
3.2.1 Sampling.....	24
3.2.2 Data collection .....	26

3.2.2.1 Household level .....	26
3.2.2.2 Market surveys, Key persons.....	27
3.2.2.3 Flock and animal level .....	28
3.2.2.4 Selection criteria and trait preferences .....	31
3.2.3 Definition of traits.....	31
3.2.3.1 Definition of household traits .....	31
3.2.3.2 Definition of productive and reproductive traits.....	32
3.2.3.3 Definition of economic traits .....	35
3.2.4 Data analysis.....	38
4 Results and discussion .....	45
4.1 Characterization of Bedouin sheep farming and flock production level .....	45
4.1.1 Socio-economic characteristics of Bedouin sheep farms.....	45
4.1.1.1 Household structure .....	46
4.1.1.2 Housing.....	46
4.1.1.3 Transportation.....	47
4.1.1.4 Land availability .....	47
4.1.1.5 Education .....	47
4.1.1.6 Occupation and income .....	48
4.1.1.7 Livestock .....	49
4.1.2 Sheep production .....	50
4.1.2.1 Functions of sheep flocks .....	50
4.1.2.2 Herd structure and performance.....	50
4.1.2.3 Feeding management.....	52
4.1.2.4 Breeding and health management.....	53
4.1.2.5 Output of sheep production .....	54
4.1.3 Economic success of Bedouin sheep farms.....	62
4.1.3.1 Variable and fixed costs .....	62
4.1.3.2 Revenue and benefits .....	64
4.1.3.3 Economic traits and their determinants .....	66
4.1.3.4 Classification of farms according to different criteria of success.....	70
4.1.3.5 Classification scheme for sheep production in the Negev.....	75
4.2 The effect of intensification of breeding on the adaptation of Bedouin sheep farmers to changing resource availability.....	77
4.2.1 Changes in socio-economic and environmental conditions .....	77

4.2.2 Changes in performance and output .....	79
4.2.3 Changes in economic traits.....	82
4.2.4 Factors with effect on the profitability (NB) of flocks with use of new genotypes .....	87
4.3 Performance of Awassi lines in Bedouin sheep flocks.....	88
4.3.1 Body weight and body condition scores of ewes.....	88
4.3.2 Lambing rate.....	90
4.3.3 Prolificacy .....	91
4.3.4 Mortality rate of lambs.....	92
4.3.5 Litter weights per ewe.....	94
4.3.6 Performance of lambs .....	95
4.4 Trait preferences of Bedouin sheep farmers in the Negev.....	98
4.4.1 Selection criteria for ewes .....	98
4.4.2 Selection criteria for rams .....	99
4.4.3 Preference ranking of important traits .....	100
4.4.4 Suggested component traits in breeding objectives.....	102
5 General Discussion.....	104
5.1 Characterization of Bedouin sheep farm types in the Negev.....	104
5.2 Factors influencing the economic output of Bedouin sheep farms .....	108
5.3 The role if new breeding technologies for the efficiency of Bedouin sheep farms.....	109
5.4 Aggregated performance of different ewe genotypes.....	113
5.5 Trait preferences of Bedouin sheep keepers.....	117
5.6 Implications for sheep breeding programs in Bedouin communities .....	119
6 Summary .....	122
7 Zusammenfassung .....	125
8 References .....	128
9 Curriculum Vitae .....	146
10 Erklärung.....	148
