

# Contents

<b>1</b>	<b>Introduction</b>	<b>6</b>
<b>2</b>	<b>State of the art</b>	<b>9</b>
<b>3</b>	<b>Theory and experimental methodologies</b>	<b>12</b>
3.1	Charge carrier transport in semiconducting materials: An overview	12
3.2	Defects and the use of the Kroeger-Vink notation . . . . .	17
3.3	Synthesis . . . . .	20
3.3.1	Growth of nanoparticles in the gas phase . . . . .	20
3.3.2	Microwave plasma synthesis . . . . .	22
3.3.3	Hot-wall reactor synthesis . . . . .	23
3.4	Characterization and functionalization process . . . . .	25
3.4.1	X-ray diffraction (XRD) . . . . .	25
3.4.2	Impedance spectroscopy . . . . .	26
3.4.2.1	Sample preparation for the impedance measurements for compacted powders . . . . .	31
3.4.2.2	Measurement metrology of compacted powder . . . . .	31
3.4.3	Scanning Electron Microscopy (SEM) and Electron Beam Lithography (EBL) . . . . .	33
3.4.4	Functionalization process for silicon nanoparticles . . . . .	35
<b>4</b>	<b>Results and discussion for ZnO nanoparticles</b>	<b>38</b>
4.1	Structural properties . . . . .	38
4.2	Electrical properties of ZnO nanoparticles . . . . .	43
4.2.1	Zinc oxide nanoparticles in different gaseous environments . . . . .	43
4.2.2	Influence of the aluminum doping of the ZnO nanoparticles . . . . .	48
4.2.3	Influence of moisture . . . . .	52

## Contents

<b>5</b>	<b>Results and discussion for ZnO nanoparticle films</b>	<b>59</b>
5.1	Dispersion . . . . .	59
5.2	Printing process and resulting sensor . . . . .	63
5.3	Hydrogen sensitivity of ink-jet printed ZnO films . . . . .	66
<b>6</b>	<b>Results and discussion for silicon nanoparticles</b>	<b>70</b>
6.1	Electrical properties of as-prepared silicon nanoparticles . . . . .	70
6.2	Electrical properties of etched silicon nanoparticles . . . . .	73
6.2.1	Explanation of the resistivity and capacity changes between as-prepared and etched silicon nanoparticles. . . . .	77
6.3	Transport properties of functionalized silicon nanoparticles . . . . .	81
6.4	Variable range hopping and charge carrier transport in silicon nano- particles . . . . .	87
<b>7</b>	<b>Summary</b>	<b>93</b>
