# TABLE OF CONTENTS

Acknowledgments.....	I
Abstract.....	III
Empirical Study I.....	III
Empirical Study II.....	IV
Tables.....	VI
Figures.....	VII
Abbreviations.....	X
Introduction.....	1
Part I    Theoretical Background.....	4
1.    Social Exchange Processes in Romantic Relationships.....	4
1.1.    Relevant Theories with Respect to Social Exchange.....	4
1.1.1.    Social Comparison Theory.....	4
1.1.2.    Equity Theory.....	5
1.2.    Empirical Evidence on the Impact of Social Exchange in Couple Relationships.....	7
1.2.1.    “Like Attracts Like”.....	7
1.2.2.    Social Comparison and Competition in Romantic Relationships.....	8
1.2.2.1.    Social Comparison Between Romantic Partners in Daily Life.....	8
1.2.2.2.    Experimental Induction of Social Comparison in Couples.....	12
1.2.3.    Equity and Relationship Satisfaction.....	13
1.3.    Gender Differences in the Impact of Social Comparison.....	15
1.3.1.    Gender Differences in Attributes Relevant to Social Exchange.....	15
1.3.2.    Gender Differences in the Impact of Inequity on Relationship Satisfaction.....	18
1.3.3.    Gender Differences in Subjective Responses to Provided Feedback.....	19
1.4.    Psychological Factors Modulating the Effects of Social Comparison.....	22
2.    Critical Reflection on Current Research on Social Comparison in Couple Relationships	
Giving Rise to the Need for a Biological Perspective.....	24
3.    Biopsychological Approach to Social Comparison.....	27
3.1.    Effects of Social Status on Health.....	27
3.2.    Biological Markers as Potential Determinants of Social Behavior.....	30
3.2.1.    Hypothalamic-Pituitary-Gonadal (HPG) Axis.....	30
3.2.1.1.    Testosterone.....	33
3.2.1.1.1.    Testosterone and Dominance/Aggression.....	33
3.2.1.1.2.    Testosterone and Social Cooperation.....	35
3.2.1.2.    Estradiol.....	37

3.2.1.2.1.	Estradiol and Mood.....	37
3.2.1.2.2.	Estradiol and Processes of Attachment, Bonding and Intimacy.....	38
3.2.1.2.3.	Estradiol and Power Motivation .....	40
3.3.	Reactivity of Biological Markers in Psychological Settings .....	41
3.3.1.	Testosterone.....	41
3.3.2.	Estradiol.....	45
3.3.3.	Cortisol .....	47
3.3.3.1.	Hypothalamus-Pituitary-Adrenal (HPA) Axis .....	47
3.3.3.2.	Cortisol Reactivity in Competitive Settings .....	49
3.4.	Psychological Models of Testosterone-Sensitive Social Contexts.....	52
4.	Conceptualization of Social Behavior by the Interpersonal Theory.....	56
5.	Summary of the Theoretical Background, Study Ideas and Hypotheses .....	58
Part II	Empirical Studies .....	62
6.	Empirical study I: “Psychobiological findings on social comparison in couples” .....	62
6.1.	Introduction .....	62
6.2.	Methods.....	68
6.2.1.	Participants .....	68
6.2.2.	Experimental Procedure and Design .....	69
6.2.3.	Competition Task .....	71
6.2.4.	Psychological Outcome Measures.....	72
6.2.5.	Endocrine Measures .....	73
6.2.6.	Statistical Analyses.....	73
6.3.	Results .....	75
6.3.1.	Descriptive Analyses.....	75
6.3.2.	Overall and Specific Analyses.....	77
6.3.3.	Psychological Responses.....	77
6.3.3.1.	SC-Induced Changes in Mood, Calmness and State Anger .....	77
6.3.3.2.	Perceived Stressfulness .....	80
6.3.3.3.	Self-Esteem .....	81
6.3.3.4.	Within-Couple Differences in Psychological Responses .....	81
6.3.4.	Endocrine Responses.....	82
6.3.4.1.	Social Comparison-Induced Changes in T .....	82
6.3.4.2.	Social Comparison-Induced Changes in E2 .....	83
6.3.4.3.	Social Comparison-Induced Changes in C.....	84
6.3.5.	Manipulation Check .....	85
6.4.	Discussion .....	85
6.4.1.	The Impact of SC on the Psychological Responses of Men and Women .....	85

6.4.2.	The Impact of SC on the Endocrine Responses of Women .....	87
6.4.3.	The Impact of SC on the Endocrine Responses of Men.....	88
6.4.4.	Critical Considerations .....	90
6.4.5.	Conclusion and Clinical Implications .....	90
7.	Empirical Study II “Estradiol Predicts Affiliative Behavior in Women Towards Their Romantic Partners” .....	92
7.1.	Introduction .....	92
7.2.	Methods .....	96
7.2.1.	Participants .....	96
7.2.2.	Experimental Procedure and Design .....	96
7.2.3.	Behavioral Coding System .....	97
7.2.4.	Endocrine Measures .....	101
7.2.5.	Psychological Measures .....	101
7.2.6.	Statistical Analyses.....	101
7.3.	Results .....	102
7.3.1.	Descriptive Analyses .....	102
7.3.2.	Associations Between Baseline Endocrine Measures .....	103
7.3.3.	Interpersonal Behavior .....	103
7.3.3.1.	Dominance.....	103
7.3.3.2.	Affiliation .....	104
7.3.4.	Endocrine Measures as Predictors of Interpersonal Behavior.....	105
7.3.4.1.	Estradiol and Affiliative Behavior.....	105
7.3.4.2.	Testosterone and Dominant Behavior .....	106
7.4.	Discussion .....	107
Part III	General Discussion.....	111
8.	Summary of the Empirical Studies.....	111
8.1.	Summary of Empirical Study I.....	111
8.2.	Summary of Empirical Study II .....	112
9.	Discussion of the Findings and Embedding into the Theoretical Background .....	113
9.1.	Discussion of Empirical Study I.....	113
9.2.	Discussion of Empirical Study II .....	118
10.	Strengths and Limitations of the Empirical Studies .....	121
11.	Implications and Directions for Future Research .....	124
References	.....	126
