

Table of contents

List of tables	v
List of figures	vii
Summary	ix
Zusammenfassung	xiii
List of acronyms	xvii
1 Introduction.....	1
1.1 Background	4
1.2 Problem setting and motivation	8
1.3 Study objectives	11
1.4 Significance of the study.....	12
1.5 Outline of dissertation	13
2 Literature review on the determinants of willingness-to-pay for organic food products.....	15
2.1 Introduction	15
2.2 Economic valuation from a social science perspective: a review of empirical studies	17
2.2.1 Information and product-related factors linked to organic food products	18
2.2.2 Socio-economic and demographic determinants.....	20
2.2.3 Consumer knowledge and awareness.....	23
2.2.4 Consumer perceptions and attitudes.....	25
2.2.5 Trust as a determinant of consumer behaviour under uncertainty	28
2.3 Consumer preferences and consumer heterogeneity regarding organic food ...	31
2.4 Willingness-to-pay for organic food.....	38
2.5 Chapter conclusions	42
3 Theoretical framework and economic model	45
3.1 Theoretical framework of decision making and choice behaviour	46
3.1.1 Stated preference models and an overview of methods	48
3.1.2 Discrete-choice theory.....	53
3.1.2.1 <i>Random utility model</i>	53
3.1.2.2 <i>Heterogeneity of consumer preferences</i>	57
3.1.3 Starting point bias in choice experiments	58
3.2 Conceptual framework.....	62

3.3	Econometric choice modelling	64
3.3.1	Mixed logit	64
3.3.2	Latent class	68
3.3.3	Willingness-to-pay	71
4	Survey design and data description for organic food products	73
4.1	Identification of organic food attributes and levels	73
4.2	Designing a discrete-choice experiment	83
4.3	Survey design and survey instrument	88
4.3.1	Sample size and data collection.....	88
4.3.2	The survey instrument	89
4.3.2.1	<i>The questionnaire</i>	89
4.3.2.2	<i>The choice experiment with starting point bias</i>	90
4.4	Sample characteristics and data description	91
4.4.1	Expected signs of the attribute variables	91
4.4.2	Socio-economic and demographic characteristics	92
4.4.3	Knowledge about organic foods.....	96
4.4.4	Risk perceptions	97
4.4.4.1	<i>Principal component analysis</i>	98
4.4.4.2	<i>Risk perceptions among German consumers</i>	100
4.4.5	Determinants of trust	102
4.4.5.1	<i>Analysis of ordered choices</i>	102
4.4.5.2	<i>Results of the ordered probit model for trust</i>	105
4.5	Chapter conclusion	107
5	Organic food preferences, willingness-to-pay and discussion	109
5.1	Comparison of choices	109
5.2	Empirical results from the choice experiments	112
5.2.1	Results from the conditional logit model	112
5.2.1.1	<i>Simulation results from conditional logit model</i>	116
5.2.1.2	<i>Results for interactions in the conditional logit model</i>	120
5.2.2	Results from the mixed logit model	126
5.2.3	Willingness-to-pay estimates from the mixed logit model	137
5.2.4	Results from the latent class model	152
5.2.5	Class-specific willingness-to-pay estimates from the latent class model	157

6	Preference anomalies and preference elicitation	159
7	Conclusions.....	165
7.1	Summary of results.....	165
7.2	Implications for agricultural policy-makers and providers of organic food ...	168
7.3	Prospects for future research	169
	References	171
	Appendices	I
A1	Welfare analysis.....	I
A2	Consumer perceptions and attitudes about organic food.....	II
A3	Choice sets for apples (sample B), milk (samples A and B), and beef (samples A and B).....	III
A4	Questionnaire (for block 1, sample A)	X
A5	Descriptive statistics for the attitude items	XXV
A6	Ordered logit model	XXXIV
A7	Maximum likelihood estimates obtained from conditional logit for apples, milk, and beef (pooled and gender-specific samples)	XXXV
A8	Doubling the observed values of the price attributes for all products	XXXIX
A9	Simulations of changes in apple, milk, and beef attributes	XLI
A10	Marginal effects for milk and beef attributes	XLVII
A11	Gender-specific estimates obtained from mixed logit (without starting point bias)	XLIX
A12	Correlations	LIV
A13	Preference distributions.....	LVI
