## Table of contents

<b>General summary</b> .....	xvi
<b>Zusammenfassung</b> .....	xix
1. General introduction.....	1
1.1. Urbanization and Agriculture Research .....	1
1.2. Function of urban agriculture. ....	1
1.3. Socio-economic characterization of UPA of Faisalabad .....	2
1.4. Water and nutrient use efficiency in vegetable production.....	3
1.5. Partial nutrient balances and leaching losses in UPA.....	3
1.6. Research hypotheses .....	4
1.7. References .....	5
<b>Chapter 2</b> .....	<b>11</b>
<b>Socio-economic characterization of integrated cropping systems in urban and peri-urban agriculture of Faisalabad, Pakistan</b> .....	<b>11</b>
2.1. Introduction .....	13
2.2. Materials and methods .....	14
2.2.1. Study area .....	14
2.2.2. Data collection .....	16
2.2.3. Data analysis .....	17
2.3. Results.....	17
2.3.1. Demographic characteristics .....	17
2.3.2. Farm typology.....	18
2.3.3. Agricultural practices .....	22
2.3.4. Product handling and marketing .....	24
2.3.5. Farmers' problems.....	26
2.4. Discussion .....	27
2.5. Conclusions .....	30
2.6. References .....	31
<b>Chapter 3</b> .....	<b>37</b>
<b>Water and nutrient use in vegetable production of Faisalabad, Pakistan</b> .....	<b>37</b>
1.1. Introduction.....	40
1.2. Materials and Methods .....	41
3.2.1. Site description .....	41
3.2.2. Experimental design .....	41
3.2.3. Soil, plant, manure and water sampling.....	42
3.2.4. Chemical analysis.....	42
3.2.5. NIRS measurements .....	43
3.2.6. Spectra pre-processing .....	44
3.2.7. Calibration .....	44
3.2.8. Calculation of nutrient fluxes & apparent nutrient use efficiencies.....	45
3.2.9. Statistical analysis .....	46
3.3 Results.....	46
3.3.1. Soil nutrient status .....	46

---

3.3.2.	Nutrient inputs .....	47
3.3.3.	Crop yields and nutrient export (removal).....	50
3.3.4.	Horizontal balances .....	52
3.3.5.	Apparent use efficiencies of N, P and K .....	57
3.3.6.	Water use efficiency .....	57
3.4	Discussion .....	59
3.5.	Conclusions .....	60
3.6.	References .....	61
<b>Chapter 4</b>	<b>.....</b>	<b>67</b>
<b>Matter fluxes and nutrient leaching losses in urban and peri-urban farming system of Faisalabad, Pakistan .....</b>	<b>.....</b>	<b>67</b>
4.1.	Introduction.....	69
4.2.	Material and Methods .....	69
4.2.1.	Site selection and agro ecological zones.....	69
4.2.2.	Site description .....	70
4.2.3	Sampling.....	72
4.2.4	Chemical analysis.....	73
4.2.5.	Estimation of apparent nutrient-use efficiencies & nutrient fluxes ..	74
4.2.6.	Apparent nutrient-use efficiencies and nutrient fluxes .....	75
4.2.7	Statistical analyses .....	76
4.3.	Results.....	76
4.3.1.	Soil chemical properties .....	76
4.3.2	Inputs of C, N, P and K.....	76
4.3.3	Outputs (removal).....	78
4.3.4	Leaching losses.....	80
4.3.5	Horizontal nutrient balances .....	80
4.3.6	Apparent nutrient use efficiency.....	81
4.4	Discussion .....	82
4.4.1.	Leaching losses.....	82
4.4.2.	Nutrient output and partial balances .....	83
4.5	Conclusion.....	83
4.6.	References .....	84
<b>Chapter 5</b>	<b>.....</b>	<b>89</b>
General discussion and conclusions .....	.....	89
5.1.	Socio-economic characterization of UPA farming system. ....	89
5.2.	Evaluation of water and nutrient use in vegetable production.....	90
5.3.	Matter fluxes in UPA of Faisalabad .....	91
5.4.	Leaching losses of mineral N, P and K.....	92
5.5.	Conclusions .....	92
5.6.	References .....	93
Appendix.....	.....	95
