

Inhaltsverzeichnis

Invited Talk: <i>Silicon Photonic Devices for Advanced Modulation Formats</i>	6
<i>Nonlinear Optical Property Measurement in Integrated Photonic Devices</i>	7
Design and Simulation of Optical Interfaces for Photonic Integrated System-in-Package	12
<i>Optical Coupling of SOI Waveguides and INP based Photodetectors</i>	20
<i>Silicon photonic micro-cavities, Raman-amplifiers, and ultra-small electro-optic modulators</i>	21
<i>Reconfigurable Spectral Phase Encoder in a Silicon Photonics Platform</i>	28
Invited Talk: <i>Foundry-Prozesse für die Siliziumphotonik</i>	32
<i>CMOS-Compatible Fabrication of Integrated Silicon Photonic Systems</i>	33
<i>Tunable Finite Impulse Response Filter for Dispersion Compensation using Multi-Arm MZIs in SOI Technology</i>	37
<i>Integration of novel lattice-matched Ga(NAsP) laser material on (001) Si for optoelectronic and photonic applications</i>	42
Silicon photonic components for a novel interferometric biosensor array concept	44
Integrated Bragg Gratings on SOI RibWaveguides for Dispersion Compensation	49
