

Index

| | |
|--|-----|
| Index..... | i |
| Abbreviations..... | iii |
| 1 Introduction | 1 |
| 1.1 Equine melanoma..... | 1 |
| 1.1.1 Overview..... | 1 |
| 1.1.2 Immunotherapy | 2 |
| 1.2 Immune effects of DNA | 3 |
| 1.3 Immunological biomarkers in horses | 4 |
| 1.4 Aims | 5 |
| 2 Manuscript I..... | 7 |
| Evaluation of the reactivity of commercially available monoclonal antibodies with equine cytokines..... | 7 |
| 3 Manuscript II..... | 29 |
| Influences of Age and Sex on Leukocytes of Healthy Horses and their <i>ex vivo</i> Cytokine Release | 29 |
| Supplemental data | 42 |
| 4 Manuscript III..... | 51 |
| Colour matters: immunological responses of grey and non-grey horses to DNA constructs complexed with a cationic transfection reagent | 51 |
| Abstract..... | 53 |
| Background..... | 55 |
| Results and discussion | 59 |
| Conclusions | 102 |
| Supplemental files..... | 104 |
| Methods | 125 |
| Competing interests | 144 |
| Sources of funding | 144 |
| Authors' contributions | 144 |
| Acknowledgements | 144 |

| | | |
|-------|--|-----|
| 5 | General discussion..... | 145 |
| 5.1 | Finding suitable biomarkers..... | 145 |
| 5.1.1 | Influencing factors..... | 145 |
| 5.2 | Immunostimulation with DNA <i>in vivo</i> | 147 |
| 5.2.1 | General inflammatory response | 147 |
| 5.2.2 | Mechanism of immunostimulation by complexed DNA | 149 |
| 5.2.3 | Transgene expression | 151 |
| 5.2.4 | Responder classification | 152 |
| 5.2.5 | Different response in grey and non-grey horses | 153 |
| 6 | Conclusions..... | 155 |
| 7 | Summary..... | 157 |
| | Acute immune response of healthy horses to linear DNA encoding Interleukin 12 and Interleukin 18 complexed with SAINT-18..... | 157 |
| 8 | Zusammenfassung..... | 161 |
| | Akute Immunantwort gesunder Pferde auf Interleukin 12/18 kodierende lineare DNA- Vektoren formuliert mit SAINT-18..... | 161 |
| 9 | References..... | 165 |
| 10 | Annex..... | 185 |
| 11 | Acknowledgements | 186 |
