Contents

1. Introduction **13**
- 1.1. Learning Ecosystems . . . 13
- 1.2. Problems and Challenges . . . 14
  - 1.2.1. Interrelationships . . . 14
  - 1.2.2. Preservation . . . 15
  - 1.2.3. Remixing, Aggregation, and Reuse . . . 16
- 1.3. Vision and Requirements . . . 16
  - 1.3.1. Motivating Scenarios . . . 16
  - 1.3.2. Requirements for E-Learning Ecosystems . . . 18
  - 1.3.3. General Approach and Aims of this Thesis . . . 19
- 1.4. Contributions . . . 20
- 1.5. Publications . . . 21
- 1.6. Outline of this Thesis . . . 21

2. Web-based Learning **25**
- 2.1. E-Learning Background . . . 25
  - 2.1.1. Introduction . . . 25
  - 2.1.2. The Web as a Learning Platform . . . 26
  - 2.1.3. Learning Objects . . . 29
  - 2.1.4. Learning Object Repositories . . . 29
- 2.2. Preliminary User Studies . . . 30
  - 2.2.1. Study I: Students, the Web, and Lecture Recordings . . . 30
  - 2.2.2. Study II: Augmenting and Sharing Augmentations of Lecture Materials . . . 35
  - 2.2.3. Summary and Implications . . . 41
- 2.3. Main Requirements of Learning Ecosystems . . . 41
- 2.4. Chapter Summary . . . 43

I. Modelling Resources and their Interrelationships **45**

3. Modelling Resources in Linked Open Online Courses **47**
- 3.1. Introduction . . . 47
- 3.2. Refinement of Modelling Requirements . . . 48
  - 3.2.1. Requirements for Forum Discussions . . . 48
  - 3.2.2. Requirements for Multimedia Presentations . . . 49
- 3.3. Related Work . . . 49
  - 3.3.1. Data Models and their Specification . . . 50
  - 3.3.2. Models for Describing Online Communities . . . 62
  - 3.3.3. Learning Objects in the Semantic Web . . . 65
  - 3.3.4. Multimedia Document Models . . . 68
- 3.4. Analysis . . . 71
  - 3.4.1. Analysis of Data Representation Concepts and Modelling Languages . . . 71
  - 3.4.2. Analysis of Online Community Models . . . 73
  - 3.4.3. Analysis of Multimedia Document Models . . . 73

3.4.4. Conclusion . . . 76
3.5. Supporting the Integration and Exchange of Online Discussions . . . 76
3.5.1. Introduction . . . 76
3.5.2. Design Considerations . . . 77
3.5.3. Integration Architecture . . . 80
3.5.4. Summary . . . 81
3.6. An Ontology for Presentation Recordings . . . 81
3.6.1. Design Considerations . . . 81
3.6.2. The Presentation Recording Ontology Design . . . 87
3.6.3. Summary . . . 92
3.7. Chapter Summary . . . 94

4. Modelling Interrelationships and Annotations in Linked Open Online Courses 95
4.1. Introduction . . . 95
4.2. Refinement of Requirements . . . 96
4.3. Related Work . . . 97
4.3.1. Augmentations and Annotations in E-Learning Applications . . . 97
4.3.2. Concepts for Describing Interrelationships . . . 102
4.3.3. Concepts for Describing Annotations and Annotation Anchors . . . 109
4.4. Analysis . . . 110
4.4.1. Annotation Capabilities in E-Learning Applications . . . 110
4.4.2. Linking Concepts . . . 112
4.4.3. Annotation Models . . . 115
4.5. An Ontology for Interrelationships, Annotations, and Anchors . . . 116
4.5.1. Describing Annotations . . . 116
4.5.2. Linked Data Selectors . . . 117
4.6. Augmenting and Interlinking Lecture Recordings with Wikipedia . . . 128
4.6.1. Introduction . . . 128
4.6.2. Related Work . . . 128
4.6.3. Feature Selection . . . 129
4.6.4. Interrelating Lecture Recordings with DBpedia . . . 132
4.7. Chapter Summary . . . 135

5. Implementing Linked Open Online Courses 137
5.1. Introduction . . . 137
5.2. A LOOC Troika . . . 137
5.2.1. Introduction . . . 137
5.2.2. Collaborative Linked Learning Space . . . 138
5.2.3. Semantic Discussion Forum . . . 140
5.2.4. Semantic Paper Annotator . . . 142
5.3. Lecture E-Books . . . 143
5.3.1. Introduction . . . 143
5.3.2. Requirements . . . 143
5.3.3. E-Book Formats . . . 144
5.3.4. Transformation from Lecture Recordings to E-Books . . . 144
5.3.5. Summary . . . 146
5.4. Chapter Summary . . . 147

6. Evaluating Linked Open Online Courses **149**
6.1. Introduction . . . 149
6.2. Lecture E-Books Evaluation . . . 149
6.2.1. Introduction . . . 149
6.2.2. Related Work . . . 150
6.2.3. Study Design . . . 150
6.2.4. Devices and Applications . . . 150
6.2.5. Use of E-Books . . . 151
6.2.6. E-Learning Offerings in Comparison . . . 152
6.2.7. General Remarks . . . 153
6.2.8. Summary . . . 154
6.3. Evaluation of the LOOC Troika . . . 154
6.3.1. Introduction . . . 154
6.3.2. Evaluation Methodology . . . 155
6.3.3. Evaluation of CLLS . . . 156
6.3.4. Evaluation of Paper Discussion . . . 159
6.3.5. Summary . . . 160
6.4. Aggregating Linked Open Online Courses . . . 160
6.4.1. Authoring by Aggregation . . . 160
6.4.2. TopCast Application Design . . . 160
6.4.3. Evaluation . . . 162
6.4.4. Summary . . . 167
6.5. Chapter Summary . . . 168

II. Modelling Processes in Learning Ecosystems **169**

7. Modelling Collaboration and Interactions **171**
7.1. Introduction . . . 171
7.2. Learning Processes . . . 172
7.2.1. CSCL Scripts . . . 172
7.3. Approaches of Modelling CSCL Scripts . . . 179
7.3.1. Introduction to IMS Learning Design . . . 179
7.3.2. Modelling CSCL Scripts with IMS LD . . . 181
7.3.3. Modelling CSCL Scripts with Statecharts . . . 182
7.3.4. Modelling CSCL Scripts with Finite State Automata . . . 183
7.3.5. Modelling CSCL Scripts with Learnflow Nets . . . 185
7.4. Analysis of CSCL Script Modelling Approaches . . . 188
7.4.1. Analysis of Modelling CSCL Scripts with IMS LD . . . 188
7.4.2. Analysis of Modelling CSCL Scripts with Statecharts . . . 189
7.4.3. Analysis of Modelling CSCL Scripts with Finite-State Automata . . . 190
7.4.4. Analysis of Modelling CSCL Scripts with Learnflow Nets . . . 190
7.4.5. Intermediate Reflections . . . 191
7.5. Business Processes . . . 192
7.5.1. Business Process Modelling Concepts . . . 192
7.5.2. Analysis of Business Process Modelling Concepts . . . 197
7.6. Chapter Summary . . . 199

8. A Subject-Oriented CSCL Script Modelling Approach **201**
8.1. A Subject-Oriented Modelling Language for CSCL Scripts . . . 201
8.1.1. Language Elements of S-CSM . . . 202
8.1.2. The CSCL Script Model Authoring Process . . . 203
8.2. Abstract State Machines-based Interpreter Foundations . . . 206
8.2.1. The ASM Method . . . 206
8.2.2. ASM Definition . . . 206
8.2.3. Transition Rules and ASM Execution . . . 207
8.2.4. ASM Functions . . . 207
8.2.5. ASM Modules . . . 208
8.3. A Subject-Oriented Interpreter Model for CSCL Scripts . . . 208
8.3.1. The Behaviour Diagram . . . 209
8.3.2. Behaviour Execution . . . 210
8.3.3. Try Rounds . . . 211
8.3.4. Trying Alternatives . . . 212
8.3.5. Communication . . . 214
8.3.6. Individual and Joint Activities . . . 222
8.3.7. Group and Role Assignment . . . 223
8.3.8. Summary . . . 224
8.4. An Ontology for CSCL Scripts . . . 224
8.4.1. Motivation . . . 224
8.4.2. Methodology . . . 225
8.4.3. Scope of the Ontology . . . 226
8.4.4. Reusing Existing Ontologies . . . 226
8.4.5. Important Terms . . . 226
8.4.6. Definition of Classes and the Class Hierarchy . . . 226
8.4.7. Properties of Classes and their Constraints . . . 228
8.4.8. Summary . . . 232
8.5. Verifying Structural Soundness of CSCL Script Models . . . 233
8.5.1. Properties of Process Models . . . 233
8.5.2. Structural Soundness Verification . . . 233
8.6. Chapter Summary . . . 234

9. Summary and Outlook **237**
9.1. Summary . . . 237
9.2. Outlook . . . 238
9.2.1. Description of E-Learning Ecosystems . . . 238
9.2.2. CSCL Scripts . . . 240
9.2.3. Learning Analytics in LOOCs . . . 240
9.3. Concluding Remarks . . . 246

A. Basic Interval Relation Rules **251**

Bibliography **255**
