Table of contents	iii
List of tables	v
List of figures	vii
List of abbreviations	viii
1 General introduction	1
1.1 Background and research objectives	1
1.2 Study methodology and framework	6
1.3 Structure of the thesis	9
1.4 References	10
2 Drinking water sources, availability, quality, access and utilization for goats in the Karak Governorate, Jordan	16
2.1 Abstract	17
2.2 Introduction	18
2.3 Material and methods	19
2.3.1 The study area	19
2.3.2 Sampling and data collection	19
2.3.3 Water sampling and analysis	20
2.3.4 Statistical analysis	21
2.4 Results	22
2.4.1 Seasonal utilization of water sources	22
2.4.2 Goat production constraints with emphasis on water use	23
2.4.3 Seasonal variations of WQ	25
2.4.4 Perception of goat owners on WQ	26
2.5 Discussion	27
2.6 References	30
3 Goat breeds performance under different farming systems and conditions of water availability in the Karak Governorate, Jordan	32
3.1 Abstract	33
3.2 Introduction	34
3.3 Materials and methods	36
3.3.1 The study area	36
3.3.2 Sampling and questionnaire survey	38
3.3.3 On-farm recording of goats' body weight and body condition score	39
3.3.4 Statistical analysis	39
3.4 Results	43
3.4.1 Socio-economic characteristics of households	43
3.4.2 Herd size, species composition and livestock ownership	44
3.4.3 Farmers' perceptions of drinking behavior and water intake by goats	45
3.4.4 Factors influencing BW and BCS of adult female goats	46
3.4.4.1 BW of adult female goats	46
3.4.4.2 BCS of adult female goats	48
3.4.5 Factors influencing BW and BCS of growing kids	48
3.4.5.1 BW of growing kids	49
3.4.5.2 BCS of growing kids	50
3.5 Discussion	51
3.5.1 Herd size, composition and livestock ownership	51

3.5.2 Factors influencing BW and BCS of adult female goats	52
3.5.2.1 Variation in live body weight of adult female goats	52
3.5.2.2 Variation in body condition score of adult female goats	53
3.5.3 Factors influencing BW and BCS of growing kids	54
3.5.3.1 Variation in live body weight of growing kids	54
3.5.3.2 Variation in body condition score of growing kids	54
3.6 Conclusions	55
3.7 References	55
4 A comparative economic analysis of goat production systems in Jordan with an emphasis on water use	59
4.1 Abstract	60
4.2 Introduction	61
4.3 Materials and methods	62
4.3.1 The study area	62
4.3.2 Data collection and sampling procedure	63
4.3.2.1 Questionnaire survey	63
4.3.3 Economic performance of goat production	64
4.3.4 Statistical analysis	67
4.4 Results	69
4.4.1 Socio-economic characteristics of household	69
4.4.2 Herd size, composition and livestock ownership	69
4.4.3 Purposes of keeping different goat breeds	71
4.4.4 Water transporting responsibility and methods of water collection	72
4.4.5 Overview on annual production costs and revenues	73
4.4.5.1 Total costs	73
4.4.5.2 Total revenues	74
4.4.6 Economic efficiency of goat production	75
4.4.7 Factors affecting economic success of goat production	76
4.5 Discussion	78
4.6 Conclusions	82
4.7 References	83
5 General discussion	87
5.1 Drinking water availability, quality and utilization for goats	87
5.2 Livestock diversification, adaptability and tolerance to water scarcity	91
5.3 Water availability and productive performance of goat breeds	93
5.4 Economic performance of goat production and water provision	95
5.5 Methodological approaches	101
5.5.1 Sampling methods, questionnaire survey and focus group discussions	101
5.5.2 Assessment of water quality	103
5.5.3 On-farm performance recording	103
5.5.4 Evaluation of goat economic performance	104
5.6 General conclusions	104
5.7 References	106
6 General summary	114
7 Zusammenfassung	119
