

Eltohamy Ali Ahmed Yousef (Autor)
**Phenotypic and genetic diversity in cauliflower
genebank accessions**

**Phenotypic and genetic diversity
in cauliflower genebank accessions**

University of Hohenheim
Faculty of Agriculture
Institute of Plant Breeding, Seed Science and Population Genetics (350)
Department of Crop Biodiversity and Breeding Informatics (350b)

Table of contents

Table of contents	I
List of tables	IV
List of figures	V
List of abbreviations	IX
1 General introduction	1
1.1 Cauliflower importance	1
1.2 Ex situ conservation	1
1.3 Genetic diversity in crop plants	2
1.4 Genetic diversity in cauliflower	2
1.5 Genotyping by sequencing.....	3
1.6 Organic breeding in cauliflower	5
1.7 Genome wide association study (GWAS)	6
1.8 Genomic selection.....	7
1.9 Objectives:	9
2 Evaluation of cauliflower genebank accessions under organic and conventional cultivation in Southern Germany	11
2.1 Abstract.....	12
2.2 Introduction.....	13
2.3 Materials and Methods.....	15
2.3.1 Plant materials and experimental stations.....	15
2.3.2 Agricultural practices.....	16
2.3.3 Phenotypic measurements.....	17
2.3.4 Data analysis	17
2.3.5 Selection according mean and stability.....	19
2.4 Results.....	19
2.4.1 Evaluation of fixed effects	20
2.4.2 Genetic correlation, heritability and selection efficiency	22
2.4.3 Selection of genotypes and stability analysis.....	23
2.5 Discussion	24
2.6 Conclusion	29
2.7 References.....	30
2.8 Supplementary Materials	36
3 Evidence for strong population structure caused by germplasm regeneration in <i>ex situ</i> genebank collections of cauliflower (<i>Brassica oleracea</i> var. <i>botrytis</i>)	39
3.1 Abstract.....	40
3.2 Introduction.....	41
3.3 Material and Methods	42
3.3.1 Plant materials.....	42
3.3.2 Field experiment and phenotypic measurements.....	43
3.3.3 DNA extraction.....	43
3.3.4 Genotyping by sequencing (GBS)	43
3.3.5 Sequence data analysis.....	44
3.3.6 Read mapping and SNP calling	44
3.3.7 Analysis of population structure and genetic diversity.....	44
3.3.8 Data imputation.....	45

3.3.9 Detection of outlier SNPs	45
3.4 Results.....	46
3.4.1 Patterns of genetic diversity.....	46
3.4.2 Population structure of sample.....	47
3.4.3 Genetic diversity	53
3.4.4 Detection of highly differentiated outlier SNPs.....	53
3.5 Discussion	54
3.5.1 Assessment of genetic diversity by GBS	54
3.5.2 Patterns and causes of genetic structure in cauliflower accessions	55
3.5.3 Characterizing genebank accessions with GBS	58
3.6 Conclusion	58
3.7 References.....	59
3.8 Supplementary Materials	66
4 Genome-wide association and genomic prediction of curd-related traits in genebank accessions of cauliflower (<i>Brassica oleracea var botrytis</i> L.).....	79
4.1 Abstract.....	80
4.2 Introduction.....	81
4.3 Material and Methods	83
4.3.1 Plant materials and phenotyping.....	83
4.3.2 Genotyping.....	84
4.3.3 Analysis of phenotypic variation	84
4.3.4 Population structure	85
4.3.5 Association analysis.....	86
4.3.6 Control of false positive rates	86
4.3.7 Genomic prediction.....	87
4.3.8 Marker imputation	88
4.3.9 Linkage disequilibrium	88
4.4 Results.....	89
4.4.1 Phenotypic analysis of the six yield-related traits.....	89
4.4.2 Model comparison to control for false associations	90
4.4.3 GWAS of six yield-related traits.....	92
4.4.4 Genomic prediction with RRBLUP and BayesB.....	96
4.4.5 Linkage disequilibrium analysis	97
4.5 Discussion	98
4.5.1 Identification of significant marker-trait associations with GWAS	98
4.5.2 Evaluation of genomic prediction ability.....	100
4.5.3 Imputation effect on GWAS and genomic prediction results.....	103
4.6 Conclusion	104
4.7 References.....	105
4.8 Supplementary Materials	114
5 General discussion	129
5.1 Organic breeding in cauliflower	129
5.2 Inference of genetic diversity and population structure.....	131
5.3 Genome-wide association study in cauliflower	133
5.4 Genomic prediction in cauliflower	135
5.5 Imputation of missing GBS values	136

5.6 General conclusion.....	138
6 General summary.....	141
7 Zusammenfassung.....	145
8 References.....	149
9 Acknowledgements.....	161
10 Curriculum vitae.....	163
11 Erklärung.....	165
