Dedication	i
Acknowledgements	ii
Abstract	v
Tables	vii
Figures.....	viii
Abbreviations	ix
Introduction.....	1
PART I: THEORETICAL BACKGROUND.....	3
Chapter 1. Mental health disorders and the childbearing period	
1.1 Definition of mental health disorders.....	4
1.2 Biological and psychological aspects of pregnancy, birth and postpartum	6
1.3 Mental health disorders in pregnancy and postpartum: an overview.....	8
1.3.1 Prenatal depression	8
1.3.2 Maternal prenatal anxiety.....	9
1.3.3 Postnatal blues.....	10
1.3.4 Postnatal depression.....	11
1.4 Mental disorders in pregnancy and adverse birth outcomes	12
1.5 Summary	12
Chapter 2. Maternal mental health disorders and infant feeding	
2.1 Infant Feeding: definition and methods	14
2.2 Breastfeeding: history and culture across countries.....	17
2.3 Determinants of breastfeeding: the role of intention and attitudes towards breastfeeding during pregnancy	19
2.4 The impact of prenatal mental disorders on infant feeding	21
2.5 Postnatal disorders and breastfeeding	23
2.6 Summary	25
Chapter 3. Maternal stress and breastfeeding	
3.1 Theoretical concept of stress.....	27
3.2 Maternal prenatal stress	28
3.3 Neurobiology of stress in pregnancy, adverse birth and offspring outcomes.....	28
3.4 Maternal stress and breastfeeding	30
3.5 Breastfeeding developmental advantages for babies	33
3.6 Association between stress, mental health disorders, and breastfeeding	35
3.7 Summary	36

Chapter 4. Maternal mental health disorders and coping styles

4.1 Definition of coping	37
4.2 Maternal coping styles during pregnancy and perinatal mental disorders: consequences to birth outcomes.....	38
4.3 Maternal postpartum coping styles: influences on postnatal and infant outcomes.....	40
4.4 Summary	42

Chapter 5. Maternal mental health disorders and infant temperament

5.1 Infant temperament: a definition.....	43
5.2 Association between prenatal maternal mental health and infant temperament.....	45
5.3 Association between postnatal maternal mental health and infant temperament	47
5.4 Maternal mood variation and infant temperament.....	49
5.5 Relation between type of infant feeding and infant temperament	50
5.6 Summary	53

Chapter 6. Summary of theoretical background, study ideas and hypotheses

PART II: EMPIRICAL STUDIES

Chapter 7. Antenatal psychological and socioeconomic predictors of breastfeeding in the ALSPAC cohort

7.1 Introduction.....	58
7.2 Methods.....	60
7.2.1 Sample.....	60
7.2.2 Measures and procedures	60
7.2.3 Maternal depressive symptoms	60
7.2.4 Breastfeeding	61
7.2.5 Attitudes towards breastfeeding.....	61
7.2.6 Covariates.....	61
7.2.7 Statistical analysis	62
7.3 Results.....	63
7.4 Discussion	73

Chapter 8. Maternal coping stability and mood changes during pregnancy and postpartum: What are the effects on the infants?

8.1 Introduction.....	77
8.2 Methods.....	80
8.2.1 Sample.....	80
8.2.2 Measures and procedures	81
8.2.3 Maternal mood	81
8.2.4 Breastfeeding	82
8.2.5 Infant behaviour questionnaire (IBQ-R): very short form.....	83
8.2.6 Maternal coping styles	83
8.2.7 Covariates.....	84
8.2.8 Statistical analysis	84
8.3 Results.....	85

8.3.1 Factor structure coping.....	87
8.3.2 Maternal mood changes across time	87
8.3.3 Maternal coping changes across time	88
8.3.4 Correlation of mood changes	90
8.3.5 Association between maternal mood, breastfeeding, and infant temperament.....	91
8.3.6 Association between maternal coping, breastfeeding, and infant temperament	92
8.4 Discussion	93
PART III: GENERAL DISCUSSION.....	99
Chapter 9. Summary of findings	100
Chapter 10. Discussion and integration of findings	102
Chapter 11. Strengths and limitations	107
Chapter 12. Implications and conclusions	109
References.....	111
